Need to Sell (NTS) Scheme

easy
read

High Speed Two (HS2)

High Speed Two (HS2) is a new railway that will run from London Euston to other big stations in Britain.

When the work is done, it will be quicker and easier to travel between big cities like Birmingham, Manchester and Leeds.

HS2 Ltd is designing and building the railway.

The Need to Sell (NTS) scheme

If HS2 is being built close to a building you own, you might have to sell it.

But it might be hard to sell because of HS2.

The Need to Sell scheme is for people who need to sell their home, but can't find someone to buy it because of HS2.

With this scheme, the government will buy your home for the amount it would be worth if HS2 was not being built.

Who is this scheme for?

The Need to Sell scheme is for people who...

- **own the building**

It should also be a building you live in or do business in. The scheme also applies to:

- any farm land that you own
- any buildings or land you are looking after because someone has died.

- **will be seriously affected by HS2**

- **have tried to sell**

You need to have been trying to sell your building for 3 months and not received any offers, because of HS2.

- **bought the building before HS2 was announced**

- **have a good reason to sell**
You will have to explain why you need to sell your property now or in the next 3 years.
