

Map D – Alexandra Place vent shaft

Works in your area

What will happen in your area?

The Alexandra Place vent shaft is no longer needed for HS2. Currently we don't anticipate any works will be needed at street level. However, should the design process show any need for utilities works, this will be communicated in due course.

Key

	Works no longer required for HS2		Existing train line		HS2 route Phase One underground
	Tube station		Rail station		Parkland

Map D: Alexandra Place vent shaft

1 Previous location of Alexandra Place vent shaft

No longer required for the HS2 scheme.

2 Previous main compound to support construction of vent shaft

No longer required for the HS2 scheme.

3 Tunnelling works

Timescales to be confirmed. Where needed, monitoring will be in place before works start. Information about our Settlement Deed process can be found on page 29 of the Camden Local Area Engagement Plan.
