

Notice of hedge planting works – Chalfont St Peter

February 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance.

Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review. We have postponed all face-to-face engagement events and meetings and have put in place a number of channels to communicate with communities, such as letters and phone calls, as well as updates and alerts from each of the local community websites. You can sign up for regular updates in your local area at www.hs2inbucksandbox.co.uk

What will we be doing?

At the start of the HS2 programme of works we constructed an environmental mitigation site in Chalfont St Peter. This site is located next to the Chalfont St Peter vent shaft site on Chesham Lane and backing onto properties in Valentine Way. In response to feedback from local residents we will be planting hedgerow along the existing fence line at this habitat site. There will be a mixture of saplings and whips planted that reflect the local species in the area, and smaller vegetation. All species are native and will include Field Maple, Dogwood, Hawthorn, Spindle, Holly, Blackthorn and Yew. The newly planted hedgerow will be protected with tree guards to make sure they are not damaged or destroyed by wildlife. There will be maintenance and management visits throughout 2021 to ensure the hedgerow establishes, develops and is maintained.

A small workforce will use mobile welfare facilities to undertake the work. The welfare will be parked inside the ALIGN JV compound during working hours.
