

# Track-level weekend works in Euston Approaches

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England advice on dealing with COVID-19. The Government's strategy makes it clear construction activity can continue, as long as it complies with this guidance. Please be assured only sites that can operate within the guidelines are operational. You can sign up for regular updates in your local area at [HS2inCamden.co.uk](https://www.hs2incamden.co.uk).

## Track-level ground investigation and surveys during Network Rail weekend closures

On each weekend in September we will carry out overnight activities next to Network Rail tracks near Hampstead Road, Granby Terrace and Mornington Street bridges.

Weekend and overnight surveys and ground investigations during planned closures throughout these areas.

These activities will include visual inspections and surveys of the rail assets and retaining walls. We will also carry out ground investigations, which will involve drilling small boreholes, and vegetation clearance at various locations at track level. From the end of September we will start installing hoarding near Mornington Street bridge at track level between our worksite and the rail tracks.

The works are carried out at night along with planned Network Rail works during track closures for safe working. Lighting will not be intrusive and will only be used at each works location. We do not expect the works to be noisy and we will take all measures necessary to minimise the impact of our works on local residents.
