

Eversholt Street 16" water main replacement work

Phase 1 – 3 sites

11 January – March 2021

[Work to be done: Monday 1 March – Friday 5 March 2021](#)

During this week, the water main will be drained of water and the camera survey will take place.

Water from the main will be directed into the sewer system and there will be no impact on water supplies to properties. The camera survey report is expected the following week and will indicate whether the water main can be slip-lined or has to be open-cut as a method of replacement.

[Southbound closure of Eversholt Street – Monday 8 March](#)

At this point in the project, changes to the traffic management arrangements have to be made in preparation for Phase Two and the replacement of the water main. **Further details will be provided next week.**

[Bus diversion changes – as from Monday 8 March – late-May 2021](#)

The following diversions of buses will be in place **for at least 10 weeks from Monday 8 March until late-May 2021**

253 will terminate at Mornington Crescent.

59, 68 towards Russell Square: from Euston bus station at Eversholt Street, buses will be diverted straight ahead onto Grafton Place, right onto Churchway, right onto Euston Road, left onto Upper Woburn Place and then towards Russell Square.

168 towards Russell Square: from Bayham Street at Crowndale Road, ahead Pancras Road, ahead Midland Road, right onto Euston Road, left onto Upper Woburn Place and then towards Russell Square.

N5, N20, N253 towards Tottenham Court Road: from Crowndale Road at Eversholt Street, buses will be diverted straight ahead onto Mornington Crescent, ahead onto Harrington Square, right onto Lidlington Place, left onto Hampstead Road, then ahead on the route along Tottenham Court Road.

From 8 March, no buses will go southbound on Eversholt Street until late-May 2021
