

Notice of the former Network Rail Power Signal Box demolition works

March 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England advice on dealing with COVID-19. The Government's strategy makes it clear construction activity can continue, as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites remain under constant review. You can sign up for regular updates in your local area at www.HS2inCamden.co.uk.

Former Networks Rail Power Signal Box demolition

During last year, preparation works were carried within the worksite across Hampstead Road ahead of demolition of the former Network Rail Power Signal Box (PSB) building.

Due to close proximity to Network Rail assets, we will install protective screening in the north-east corner of the building to prevent material from escaping on to the railway site. The screen will consist of two rows of shipping containers bolted on top of each other. A demolition curtain will also be placed around the back of the building.

- Delivery and **installation of container screening** will take place **from late March to early April**. We will need to work overnight in one of the weekends, subject to weather permitting and Network Rail possession time approval.
- Once the screening containers installed, we follow on with the **demolition** of the building **until mid-May**.
- Ground works and foundation removal works will then continue **until September**. Acoustic sheeting will be used around any breaking works area.

The demolition will be carried out using a long-reach excavator with the attached muncher; this will allow us to crush concrete blocks rather than using a noisier breaker. The water hoses attached to the arm of the long reach will suppress the dust whilst carrying works at height, with further dust suppression in place from the ground-based water sprayers. Dust monitors installed around the site boundary will provide us with an early warning system should any dust escape. These methods will also allow to reduce the demolition programme for up to six weeks.

Please refer to page 3 to see the works graphic.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

Duration of works

Delivery and installation of container screening from late March to early April.

Demolition works from early April to mid-May.

Ground works and foundation removal until September.

Working hours:

Monday to Friday 8am – 6pm,
Saturday 8am – 1pm

What to expect:

Containers delivery to work site.

Containers installation will need one overnight weekend works during Network Rail possession time.

Dust suppression and noise control measures will be in place.

Some noise from demolition activities and loading of vehicles.

Acoustic sheeting will be used around any breaking works area during foundation removal.

Call our HS2 Helpdesk team on **08081 434 434**

Notification

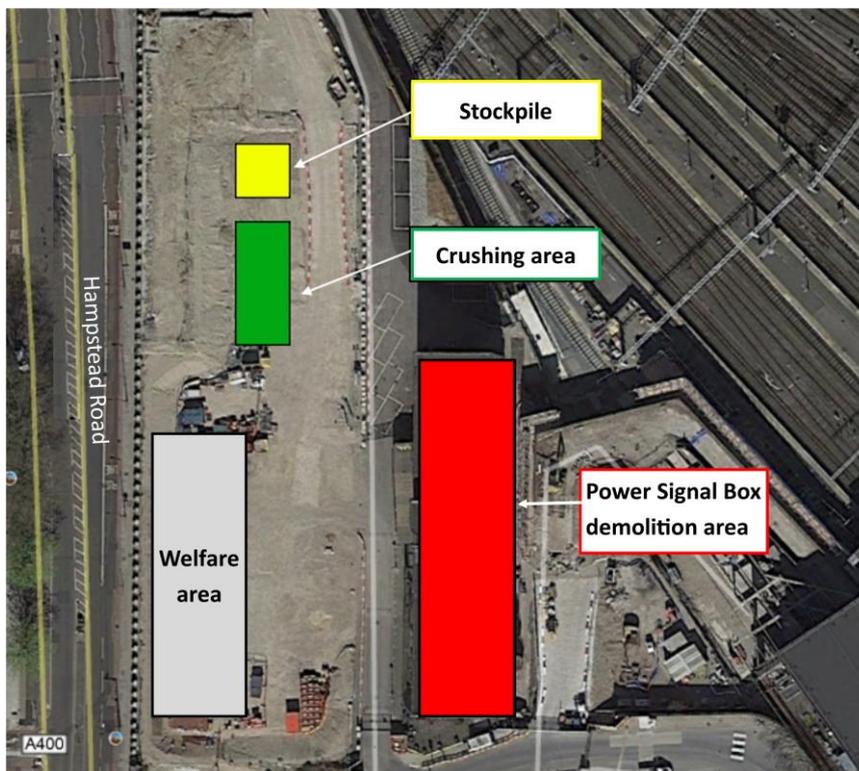

Crushing and stockpiling activities within the work site

We are crushing all of the concrete bricks and tiles from the demolition on site. The crushed materials will be used within the site to create working platforms for the construction of the railway.

The materials are moved from the demolition area to the crushing area, as shown on the map below. All material is checked and sorted using an excavator, removing steel and other material that cannot be crushed.

The crusher has two integrated water suppression systems so that the material is soaked as it comes out of the crusher in preparation for stockpiling. Once the materials are crushed and assessed, they are temporarily stockpiled and then taken back to the demolition area for future use on site.

By processing the demolition material on site, we have removed the need for a large number of lorry trips to and from the site.

We will continue to notify you of any changes to these works in due course. Please sign up to receive updates at www.hs2inCamden.co.uk.

Duration of works

Crushing and stockpile materials until autumn.

Working hours:

Monday to Friday
8am – 6pm,

Saturday 8am – 1pm

What to expect:

Dust suppression measure in place.

Stockpile is maintained and watered when required.

Noise monitoring will be in place throughout the work.

What we will do:

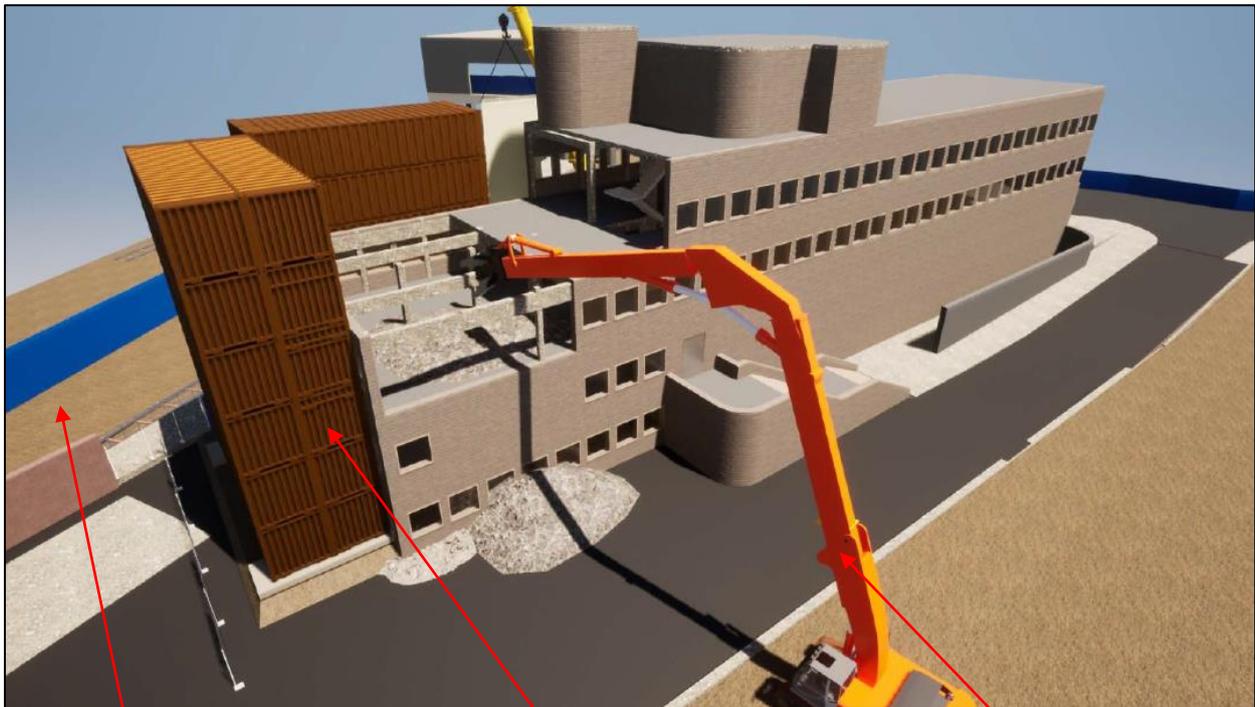

Keep you Informed of any changes to these works.

Please sign up to receive updates at www.hs2inCamden.co.uk

Network Rail site

Containers screening.
Delivery and installation from
late March to early April

Long-reach excavator.
Demolition from early April to mid-May.
The basement removal until September.

Please be aware the dates of works are indicative and may change as the works progress. We will continue to notify of further works in the area in due course.

To view the latest updates on works or sign up to received updates, please visit www.hs2inCamden.co.uk.

Construction look ahead. More about HS2's upcoming works can be found in our recent Spring 2020 Construction Look Ahead, which you can find at www.HS2inCamden.co.uk. We will be publishing these look a heads every three months to keep you updated about HS2 associated works in Camden.

Noise insulation. In certain circumstances, where noise from the construction of HS2 is likely to impact homes, HS2 Ltd may offer to install noise insulation. In order to find out if your home is eligible and find out more about the support available, please visit the dedicated Noise Insulation section of www.HS2inCamden.co.uk or call our Helpdesk.

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents'

Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at:

www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at:
residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing:

complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting:

www.gov.uk/government/collections/hs2-property

Find out if you're eligible for compensation at:

www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website:

www.hs2.org.uk/how-to-complain
