Update of utility works in Drummond Street

March 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England advice on dealing with COVID-19. The Government's strategy makes it clear construction activity can continue, as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites remain under constant review. You can sign up for regular updates in your local area at www.HS2inCamden.co.uk.

From January 2021 a series of utility works commenced on Drummond Street in the section between Cobourg Street and North Gower Street. These include BT telecommunication chamber construction works and CSjv sewer construction, and gas and water disconnection works.

To make sure that our works are completed by the end of May, the decision has been taken to carry out these works at the same time. This will allow for the planned installation of a streaterie between Cobourg Street and North Gower Street. This is being delivered by Camden Town Unlimited, the business Improvement District for Camden Town.

Later in summer we will need complete jointing of new UKPN cables into the existing network in the western section of the street, opposite Chutneys and Taste of India. This will finalise the electrical power ducting works we have been carrying out since last year along North Gower Street, across Euston Road, Gower Street, Gower Place and Gordon Street. We will update you soon to confirm the dates for this works.

BT Openreach chamber construction works are continuing in the eastern junction with North Gower Street until late May. The worksite is located up to Drummond Villa.

CSjv sewer construction and gas and water disconnection works started 22 March and will run until end May.

Vehicle access through Drummond Street is closed between North Gower Street and Cobourg Street. To maintain safe traffic, the one-way traffic system was introduced around eastern section of Drummond Street via North Gower Street – Euston Street – Cobourg Street – Starcross Street.

The footpath will remain open, except the north-east corner occupied by BT Openreach worksite. Access between two sides of the footpath is maintained via pedestrian footway between two worksites.

Green signs directing pedestrian to and from Euston Station via Drummond Street are displayed along the street and its vicinity. Additional business directory maps are displayed on footpath along both sides of the works area.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email HS2enquiries@hs2.org.uk

Drummond Street works until end May:

BT telecoms chamber construction works.

CSjv manhole construction and gas disconnection works.

Working hours:

Mon to Fri 8am–6pm; Sat 8am–1pm

Possible weekend works

We may also be on site for one hour either side of the hours above for start-up and shutdown.

What to expect:

Road closure in the sections between North Gower Street and Cobourg Street.

Traffic management around work sites and in surrounding roads.

Pedestrian access will be maintained.

Noise mitigation measures in place.

Further UKPN works in summer period in the western section of the street, to be confirmed.

Update of utility works in Drummond Street

Notification

March 2021 | www.hs2.org.uk

The sewer construction works will include protection of the existing services, excavation, cutting into the existing sewer and manhole construction in front of Charles Place. The works will also include gas and water disconnection works in the corner with Cobourg Street.

Please be aware that the construction of an access shaft on the Drummond Street walkway and lining of the new sewer has been delayed, we will update you as soon as these works are confirmed.

To protect existing services during the construction phase, we will build temporary overflow pipework and redirect the sewer contents by pumping up and over the road to the existing sewer manhole across Cobourg Street. Please see to the right the example of the overflow pipework.

The initial digging of the road will be the noisiest activity, although this will be intermittent and not continuous. We will put up screening clad with acoustic panels to reduce noise.

We might use a vacuum excavator, which is a safer and faster way of working, as it sucks up material to expose buried utility services without risk of damaging the cables or pipework below. This is a noisier method, and we erect acoustic barriers around the machine, however a lot of the noise would be sent vertically, when the machine is running. We apologise in advance for inconvenience this might cause.

Utility supplies and other services will not be affected by these works.

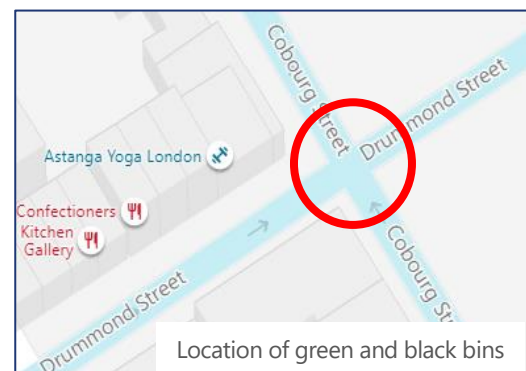

Example of overflow

Refuse collection

Refuse collection was reviewed by Camden Council and, as a temporary measure, two green rubbish bins and one black recycling bin were delivered to the junction of Drummond Street and Cobourg Street. We would request that businesses dispose of all refuse and recycling there as they will not be collected from outside of the premises during the road closure. Residents could present their refuse bags outside of their property as normal, may we recommend using those bins too. Please accept our apologies for any inconvenience.

Bins will be collected every Monday, Wednesday, and Friday only. If you have any questions, please get in touch with the Veolia services via email: uk.occamden@veolia.com or call: 020 3567 8105.

Location of green and black bins

Loading and short stay bays.

All street parking and loading bays are suspended for the duration of works. We worked with Camden Council to ensure alternative loading and short stay bays are provided in Cobourg Street South. We will continue to monitor the situation and look for further possibilities to provide alternative spaces for loading and short stays for customers where possible.

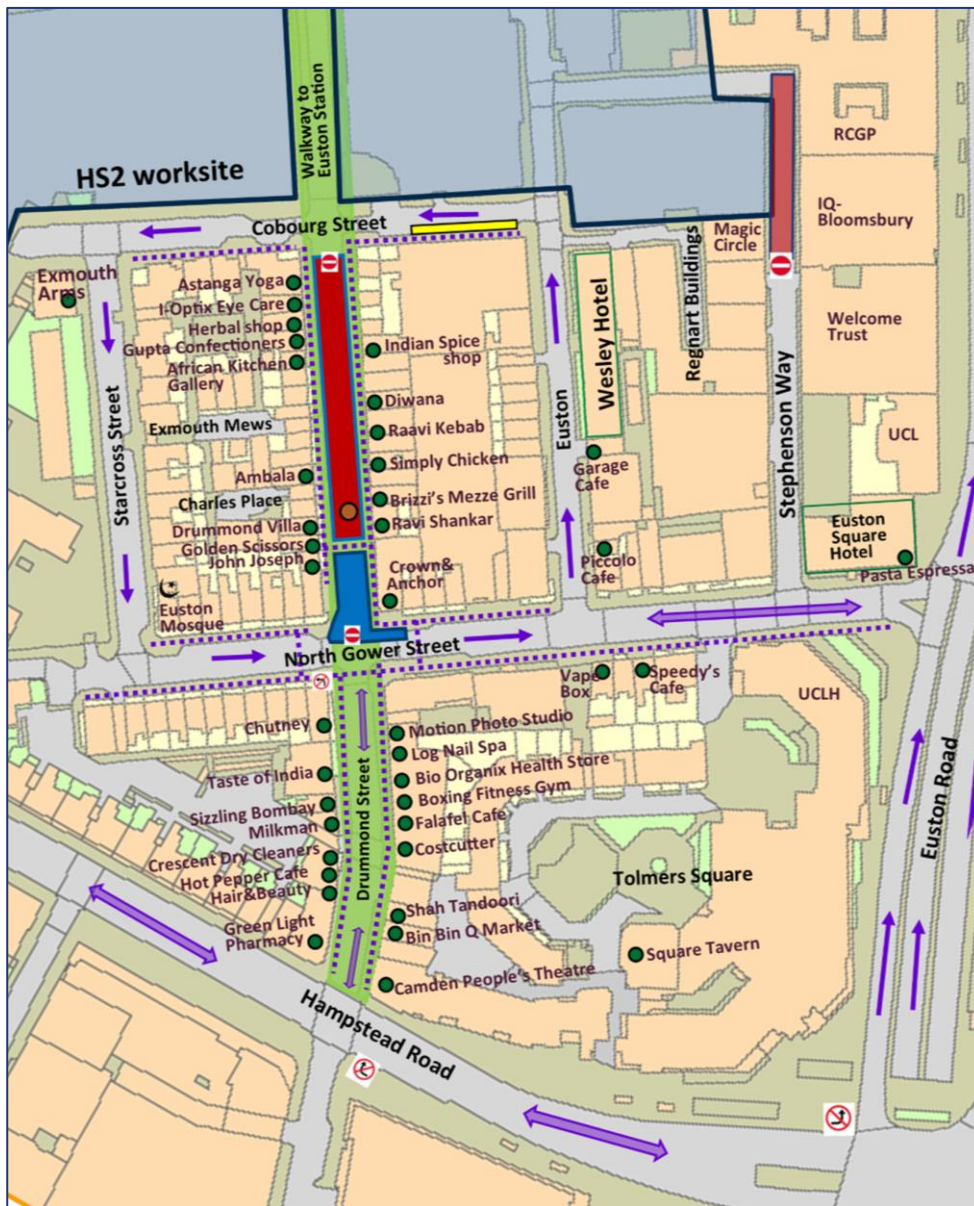

Contact our HS2 Helpdesk team on **08081 434 434**

Traffic and pedestrian management map

from w/c 22 March to end May

March 2021 | www.hs2.org.uk

Notification

- Drummond Street and other Euston West businesses.
 - CSjv sewer manhole construction worksite.
 - BT Openreach worksite
 - Short stay / loading bays
 - Pedestrian routes
 - Two-way traffic
 - One-way traffic
- Access from Hampstead Road and Euston Road:**
- One-way** traffic loop follows via North Gower Street – Euston Street – Cobourg Street – Starcross Street
- Two-way** traffic on North Gower Street between Euston Road and Euston Street, vehicles coming from Euston Road diverted along Euston Street.

Please be aware the dates of works are indicative and may change as the works progress. We will continue to notify of further works in the area in due course. Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents'

Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at:

www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at:
residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing:

complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting:

www.gov.uk/government/collections/hs2-property

Find out if you're eligible for compensation at:

www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website:

www.hs2.org.uk/how-to-complain
