# Update: works in Euston Throat and Hampstead Road

August 2021 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. You can sign up for regular updates in your local area at [HS2inCamden.co.uk](http://HS2inCamden.co.uk).

## Update: works in Euston Throat worksite - 2021 to 2022

We are expanding the railway cutting in the area between Hampstead Road and Granby Terrace to make way for the new HS2 railway tracks. As part of these works, we will construct a new retaining wall on the Regent's Park estate side of the cutting. We will then excavate the ground between Hampstead Road and Granby Terrace to widen the railway cutting. We notified you of these works in June, but due to onsite delays the dates have now changed.

On 28 June we started installing sheet piles to form the new retaining wall. We will now continue this sheet piling until September, using the pressed sheet piling method.

From late August until October, we will then break down the concrete working platform we used as a base for the piling rigs. This work requires a large excavator to clear the area for excavation works. This work will be noisy, and we apologise for the disruption.

We will do all we can to minimise the disruption, including limiting concrete breaking to a few hours a day during weekday core hours. We will also use acoustic blankets to limit noise whenever possible. Once we remove the concrete working platform, we will excavate the ground in front of the retaining wall to expand the railway cutting. We will carry out this excavation work in stages, from September onwards.

We will use acoustic fencing and water cannons to limit noise and dust as much as possible and will have monitors in place to ensure our works remain within limits agreed with Camden Council. We apologise for any disturbance this may cause.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [HS2enquiries@hs2.org.uk](mailto:HS2enquiries@hs2.org.uk)**

## Update: Hampstead Road central reserve removal

We are currently removing the central reserve on Hampstead Road to enable a right-hand turn out of our worksite.

We previously informed you we would move the traffic management in phases, as the works progressed. However, we will now leave the current traffic management in place until the works are complete (see map on next page). This is to provide space for Thames Water to repair a water main from within the current working area, reducing any further disruption to traffic.

This means the northbound lanes will remain closed, with two-way traffic in the southbound lanes. We will also continue to suspend the southbound bus lane and bus stop W until the end of August. The nearest alternative bus stops are Robert Street stop J and bus stop K near the corner of Netley Street, or the bus stops near Mornington Crescent underground station.

CSjv, the HS2 enabling works contractor, has been installing a sewer pipeline across Hampstead Road since mid-July. CSjv is due to complete these works ahead of schedule, meaning vehicles will be able to enter Varndell Street from Hampstead Road from 12 August. Access from Varndell Street onto Hampstead Road will remain closed until our works to the central reserve are complete.

Our team will continue to work Monday to Friday 8am to 6pm and Saturday 8am to 4pm, to finish the works as soon as possible.

We will need to carry out further works at the junctions of Hampstead Road and Granby Terrace, and Hampstead Road and Cardington Street before we can begin to use the right-hand turn. CSjv will also return to carry out further works on Varndell Street. We will provide further information about these works closer to the time.
