

# Notice of ground investigations surveys – Attleboro Lane, Water Orton

April 2020 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI is working in partnership with HS2 Ltd to build the new high speed railway in your area.

## What work will we be doing?

Preparations for main construction work on HS2 are now well underway. To continue with this work, we will be undertaking ground investigation surveys within various locations in land situated off Attleboro Lane, Water Orton. These surveys help us to understand more about the ground conditions where we want to build the railway. The surveys will involve taking soil samples and boring trial holes in different locations. To complete our survey works, we will transport drilling rigs to site by trailer. Drilling rigs will then be positioned on site and our workforce will travel to site every day by a 4x4 vehicle.

## When will these works take place?

Works are scheduled to start 19 April and will be working in the area for 4 weeks

## HS2 during the COVID-19 pandemic

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
