

# Update: working hours over May bank holiday and half term

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England advice on dealing with COVID-19. The Government's strategy makes it clear construction activity can continue, as long as it complies with this guidance. Please be assured only sites that can operate within the guidelines are operational. You can sign up for regular updates in your local area at [HS2inCamden.co.uk](https://hs2incamden.co.uk).

## Weekend works at track-level within Camden Cutting – Bank Holiday hours:

We are carrying out weekend overnight works at track-level within the Camden Cutting, from May to September. For safety reasons, due to the proximity of the works to the tracks, these works can only be carried out overnight during weekends or during rail closures when trains are not operating.

Our overnight weekend working hours for those works between Parkway and Mornington Street bridge, are usually Friday 6pm to Monday 4am. This bank holiday weekend however, we will work from 10pm Friday 28 May to 5am Tuesday 1 June.

We will be preparing the working area beneath the railway bridge, as well as carrying out initial ground anchors and maintenance works. We will move material and equipment for these works, across the tracks via the railway.

We do not expect these works to be noisy and will have measures in place to limit the impact of noise or lights.

For further information please see the original notice 'Track-level overnight weekend works and surveys around Camden Cutting'

## SCS main site cabin deliveries – changes to Stanhope Street closure

We are currently installing a five-storey site office within our worksite on the corner of Stanhope Street and Granby Terrace, next to Langdale.

From 17 May to 9 June, lorries will be delivering pre-built cabins to site via Park Village East. These lorries will park on Stanhope Street, adjacent to our worksite, where we will use a large crane to lift the cabins from the lorries into place. For safety reasons we cannot operate this crane in poor weather conditions, such as high winds.

We previously informed you that we need to close a section of Stanhope Street between Park Village East / Augustus Street and Mackworth Street, to provide a safe working area. This section of road is closed from 9am to 3pm on weekdays and 7am to 1pm on Saturdays.

We will extend these hours during the school half term break from 31 May to 4 June, when Stanhope Street will be closed from 9am to 6pm.

Traffic will be diverted via Varndell Street, Cumberland Market and Augustus Street. Local access will be maintained at all times.

From Tuesday 25 May, we will also begin delivering cabins to the Vehicle Holding Area before 7am, to then deliver them to site from 9am once the road is closed. This will allow us to complete the cabin deliveries more quickly.

These changes are to account for weather-related delays, to enable us to complete the cabin install by 9 June.

## Deconstruction of Granby Terrace bridge - March to July

We have almost finished deconstructing span 4 of Granby Terrace bridge.

We will carry out works every weekend from 28 May to 20 June to remove the remaining beams and concrete the exposed end of the bridge.

The crane to lift the beams will be brought onsite before 7am. Our weekend working hours are from 7pm Friday to 7pm Sunday, we may be onsite for an hour before or after for site set up and pack up.

For safety reasons, due to the proximity of the works to the tracks, these works must be carried out over weekends, during rail closures. We do not expect these works to be noisy.
