Notice of Utility Works at Duddeston Mill Road, Birmingham

High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review

What are we doing

We are writing to you to give a brief update and make you aware of the works taking place by Western Power Distribution (WPD) on our behalf.

The proposed work is to undertake trial holes on Duddeston Mill Road at the entrance to Network Rail Saltley Depot. This work includes the excavation of material in a segregated works area and reinstatement. All works will be segregated from vehicle or pedestrian access and sign posted. Any changes to footpaths or vehicle routes will be signposted at location in line with agreed traffic management requirements. Once completed all locations will be put back as new. No outages will take place during the works.

How will this affect me?

Footpath diversion and lane closure.

At the work location, Traffic Management will be in place and this will be coordinated to make sure all appropriate lane closure or footpath diversions are in place prior to the works starting. Work locations are at 4 locations along the southern footpath on Duddeston Mill Road.
