

# Notice of vegetation works Addison Road

May 2021 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance.

Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review. We have postponed all face-to-face engagement events and meetings and have put in place a number of channels to communicate with communities, such as letters and phone calls, as well as updates and alerts from each of the local community websites. You can sign up for regular updates in your local area at [www.hs2inbucksandox.co.uk](http://www.hs2inbucksandox.co.uk)

## What will we be doing?

Before the main railway construction works for the realignment and reconstruction of the new bridge commences on Addison Road, we need to carry out the removal of roadside hedgerows and vegetation clearance along the highway boundary. As some of these works will need to be carried out on or adjacent to the carriageway we will need to put in place temporary traffic lights between the hours of 9.30am and 3.30pm, the road will open as normal outside of these times.

The works will take place between Monday 17 May to Friday 28 May 2021 weekdays only.

Please refer to the map overleaf that shows the working areas.

Where appropriate some sections of vegetation will be replaced with temporary fencing, this will help keep the site secure ahead of future construction activities.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

## What consents do we have to undertake this work?

There have been extensive ecological and tree surveys undertaken across the vegetation identified for clearance.

Before any vegetation is cleared it will be thoroughly inspected by qualified ecologists. Any protected species found to be present will be recorded, the appropriate buffer established and no vegetation in that area will be cleared until the species have left the site. Any vegetation that cannot be removed due to the presence of protected ecology will be left until further surveys confirm that the ecology is no longer present.

The vegetation clearance will be undertaken in accordance with:

HS2 Organisational European Protected Species Great for Crested Newt Licences WML025.

HS2 Organisational European Protected Species Licence for Badger WML024.

## How will this works affect you?

You may notice extra traffic on the roads due to the workforce and equipment movements in the area. HS2 construction traffic, HGV's and all vehicles of 7.5 tonnes or greater making deliveries to the site will use The Broadway from the A41 along Perry Hill/ Gawcott Road/ Werner Terrace to Addison Road.

We will be closely monitoring the roads around the site and regular road sweeping will take place. We will take measures to ensure we keep mud off the local roads, such as cleaning dirty vehicles before they leave work areas.
