

Notice of survey works at Hanchurch Interchange (M6 junction 15/A500)

May 2021 | www.hs2.org.uk

Notification

High Speed Two (HS2) is the new high speed railway for Britain. Working on behalf of HS2 Ltd, Balfour Beatty is carrying out surveys and investigating ground conditions along the route of Phase 2a.

We will be carrying out surveys and investigating ground conditions in your area

HS2 Ltd are proposing changes to Hanchurch Interchange to help manage traffic flows during the construction of HS2. To inform the design of these changes, Balfour Beatty will carry out surveys and ground investigation commencing in June. The survey works will be 'non-intrusive' and include land, CCTV of drains and environmental surveys. The ground investigation 'intrusive' work will follow and will involve using drilling rig equipment and excavators to drill 'boreholes' in the ground and take samples for analysis. We'll also dig shallow 'trial pits' to study ground conditions. We will need to remove some vegetation before the investigations start.

We will be working on land either side of the A500 Queensway, the A519 Newcastle Road and Clayton Road to carry out all surveys.

The ground investigation will be carried out in four phases with most work carried out during the night, except for works on the A519 Newcastle Road and Clayton Road, which will be done during the day on consecutive Sundays.

We expect to complete all works over a twelve-week period.

How will this affect you?

While there may be some low-level noise and lane restrictions in place, we will aim to minimise the disruption to local people.

We will install sound barriers around the perimeter of the drilling equipment to reduce noise levels.

On each phase of ground investigation works we do not expect the drilling to last more than two consecutive evenings at any location.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Community and Business Funds

Two funds are now open for applications from local communities and businesses affected by the construction of HS2. They are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF). £5 million has been allocated to the funds for phase 2a of the railway.

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
