

Notice of construction works on the east and west bound M6/M42 link roads

May 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new high speed railway in your area.

The work we will be doing

In early May we updated you on the works to be carried out on the M6/M42 link roads. Unfortunately, some aspects of these works were not able to start on the dates outlined and are now planned to start Monday 14th June. The works that will be completed include:

- Widening of the east bound hard shoulder
- Implementation of long-term traffic management arrangements, consisting of narrow running lanes
- Creation of access/egress point off the east bound link road

In order to undertake our works safely, throughout June and July we will work with Highways England to:

- Implement temporary overnight road closures on east bound link road.
- Implement long-term narrow lanes on east bound link road, reducing the speed limit to 50mph. These narrow lanes will be in place for the duration of BBV's construction programme.

These works are part of the wider HS2 works in the area, as we start to prepare for the access and egress point onto the east bound link road and also the viaducts which will cross the link roads in this location.

We will keep you up to date with more works happening through timely communications on HS2 Warwickshire community website and through Highways England communication channels.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
