Monitoring in and around the Euston Approaches

November 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. You can sign up for regular updates in your local area at HS2inCamden.co.uk

Ongoing monitoring in and around the Euston Approaches

In September 2020, we installed prisms and reflectors on buildings and structures around the Euston Approaches, and installed ground studs on local footways. These instruments allow us to carry out surveys to monitor ground movement in the area around our worksite to make sure movement is within safe limits.

Our team visits these locations each week to carry out surveys, collect data and maintain the instruments. We will continue to carry out these surveys until the project is complete. We may visit certain locations more frequently when we are carrying out major works nearby.

The equipment we use records measurements and numbers. Please be reassured the equipment does not take images so your privacy is protected.

If you have any questions about surveys, monitoring or ground movement please email HS2 Helpdesk and we will get back to you in due course. Our surveyors will also be able to provide the HS2 Helpdesk contact details to anyone with questions about their work.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email HS2enquiries@hs2.org.uk
