

Update: vegetation clearance next to Grand Union Canal

July 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance. Please be assured that only sites that can operate within these guidelines are operational. All sites will remain under constant review.

Vegetation clearance works next to Grand Union Canal

During autumn 2021, we are planning to install a conveyor crossing over the Grand Union Canal. This will be part of the conveyor system in Old Oak and Park Royal to move excavated materials between sites to reduce construction traffic on local roads while we build HS2.

To remind you, we have been carrying out preparation works to install the conveyor system between our sites in your local area. We are continuing works next to Grand Union Canal to prepare for installation of the conveyor crossing between our Atlas Road and Willesden Euroterminal sites. We will be trimming trees located in the Grand Union Canal embankment. These works are planned from 19 to 23 July and will be carried out between 8am and 6pm. The dates for these works may change.

A map showing the location of these works is included on the next page.

Find out more about the conveyor system

We are holding online information events about the conveyor system on the following dates Wednesday 21 July from 6pm to 7:30pm and Wednesday 28 July from 12pm to 1:30pm.

We are also available to speak with you at monthly virtual one to ones in Old Oak and Park Royal. The next virtual one to one date is Wednesday 28 July from 3pm to 6pm.

Register to attend the conveyor information event or virtual one to one at www.hs2.org.uk/events
