• Utility works lane closure and temporary traffic lights on Eversholt Street	Under way	Jul 2026	2028

Vehicle Holding Area/ Parkway (SCS)

Parkway utility works – February to October 2026

We need to protect and divert utility services beneath Parkway junction and in the surrounding area before the tunnelling boring machine passes beneath. In February we started our utility works on the sewers, water mains and power cables on Parkway, Albert Street and Delancey Street. We expect to complete these works in October 2026.

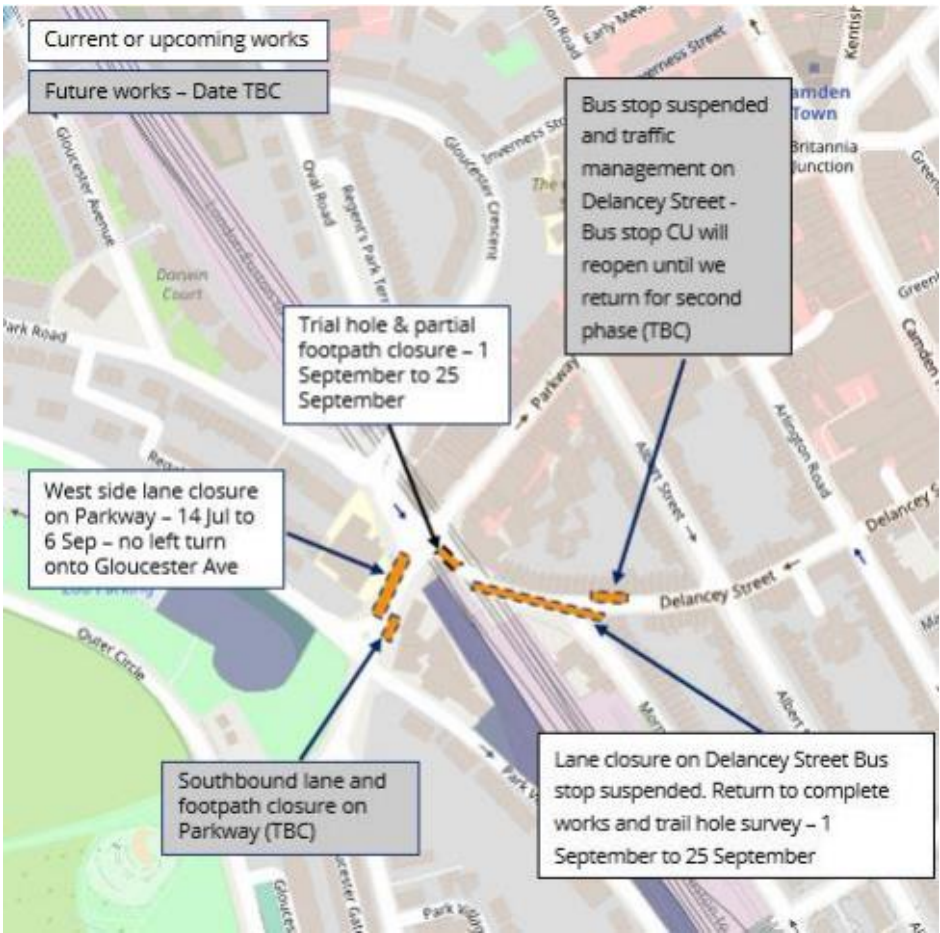

In autumn 2026, we'll return to Parkway to complete protective works to the Cadent Gas main.

Traffic impact

- Lane, footpath and bus stop closures
- Parking bay suspensions
-

2026

Cadent Gas diversion works on Parkway – traffic island removal from 28 September to 30 October

We will strengthen and protect the Gas main beneath Parkway junction before the arrival of the tunnel boring machine (TBM). To help protect the gas network, we will replace sections of the existing gas main with a new main before tunnelling arrives at Euston.

Traffic island removal

From 28 September, we'll begin removing the islands from Parkway in three phases. The first phase will involve a lane closure on Parkway, preventing vehicles from turning left on Gloucester Avenue. Traffic will be diverted from Parkway to Prince Albert Road, Albert Terrace, Regent's Park Road, back onto Gloucester Avenue. We expect to complete this phase by 5 October.

On 6 October, phase two will begin and there will be no direct access from Delancey Street into Gloucester Avenue across Parkway. This diversion will follow from Delancey Street onto Parkway, Prince Albert Road, Albert Terrace, Regent's Park Road to Gloucester Avenue. We expect to complete this phase by 14 October.

On 15 October, phase three will begin and vehicles will be banned from turning right from Delancey Street onto Parkway. You are also unable to go straight from Delancey Street to Gloucester Avenue. These diversions will mirror phase two diversions starting with a left turn from Delancey Street to Parkway, Prince Albert Street, Albert Terrace, Regent's Park Road, Gloucester Avenue back onto Parkway. We expect to complete this phase by 30 October.

Traffic impact

- Lane and road closures
- Traffic diversions

Cadent Gas diversion works on Parkway – gas mitigation works from 2 November to March 2027

We will strengthen and protect the Gas main beneath Parkway junction before the arrival of the tunnel boring machine (TBM). To help protect the gas network, we will replace sections of the existing gas main with a new main before tunnelling arrives at Euston.

Gas mitigation works

From 2 November 2026 to early March 2027, we will close several lanes on Delancey Street and Parkway. Vehicles will not be able to turn left from Delancey Street onto Parkway. The diversion will follow from Delancey Street across Gloucester Avenue, along Regent's Park Road, left on St Mark's Square, left on Prince Albert Road, then back via Parkway.

Traffic impact

- Lane and road closures
- Traffic diversions
- Temporary traffic lights and pedestrian crossings

Camden Cutting (SCS)

Mornington Street bridge reopened

We reopened Mornington Street bridge to vehicles on 8 January 2024. We have put a 3-tonne weight limit in place which we are managing with width restriction barriers at both end of the bridge.

For safety reasons, Network Rail and SCS will continue to monitor the bridge whilst work continues beneath it.

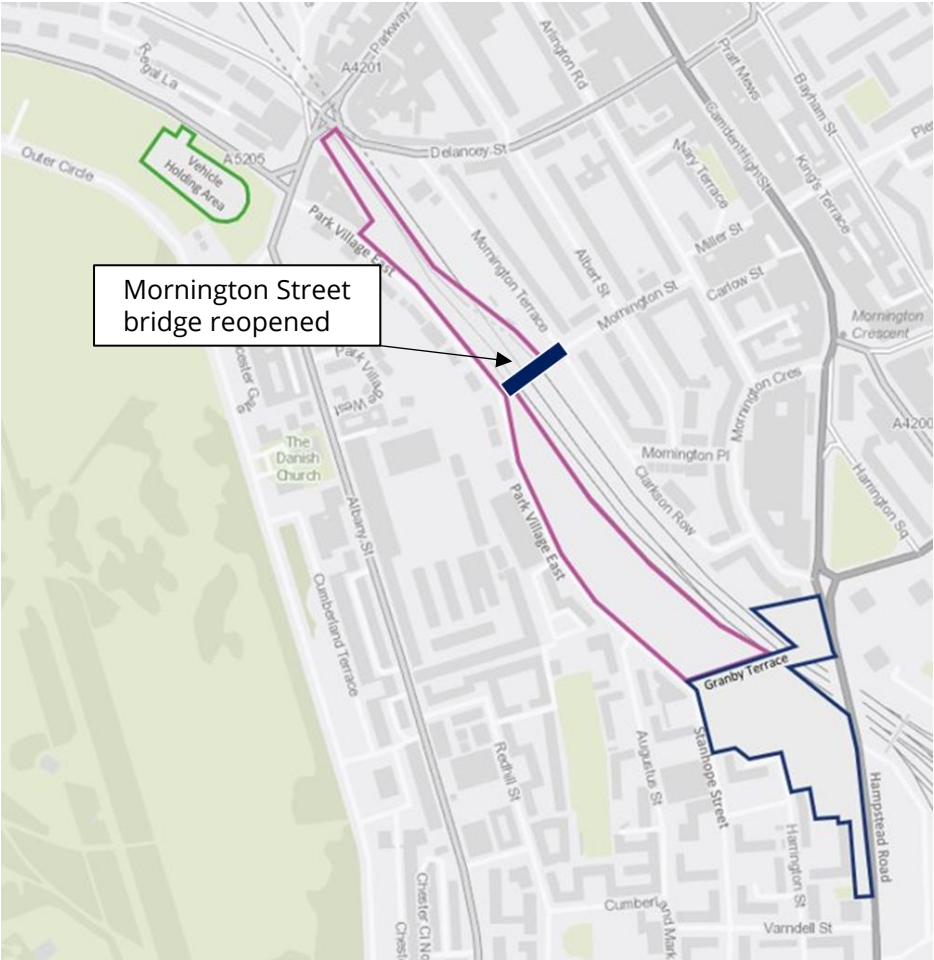

Please note the bridge will be closed throughout the duration of tunnelling works and we will update you in advance. These are expected to take 5 years to complete.

Traffic impact

- Mornington Street bridge reopened to vehicle traffic with 3-ton weight limit
- Access maintained for cyclists and pedestrians

Euston Throat (SCS)

Southbound cycle lane and footpath closure on Hampstead Road, south of Cardington Street – 4 May onwards

In preparation for Mace Dragados' (MDjv) Western Utility Road programme, which will run parallel to Hampstead Road (within site), we need to construct some British Telecommunications (BT) chambers in the southbound cycle lane and footpath. We started these works on 4 May and will continue until October 2026.

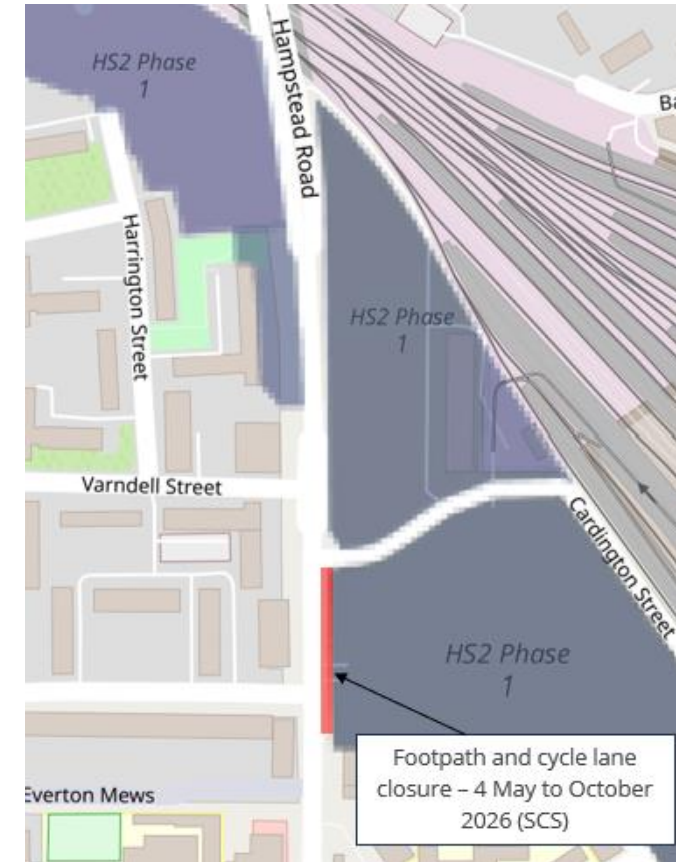

Duration of works: 4 May until October 2026

Traffic impacts:

- Footpath and cycle lane closure on Hampstead Road
- Pedestrians and cyclists will be diverted around the closure

---------	----------	-------	-------	-----	------	------	--------	-----------	---------	----------	----------

Lane closure on Lidlington Place and Hampstead Road bridge – 28 September to 23 October

Previously we installed a new cable route and diverted utility services from Lidlington Place to Varndell Street via Granby Terrace next to Hampstead Road to clear our working area before we begin works to extend Hampstead Road bridge.

We have recently been made aware by UK Power networks (UKPN) of another cable that needs to be diverted before works can begin to extend Hampstead Road bridge.

Duration of works: 28 September to 23 October 2026, including Saturday 3 and 17 and Sunday 4 and 18 October

Traffic impacts:

- Northbound lane closure on Hampstead Road bridge
- Road and footpath closure on Lidlington Place
- Parking bay suspension on Lidlington Place

Euston Station works (MDjv)

North Gower Street and Euston Street utility diversions – April to October 2026

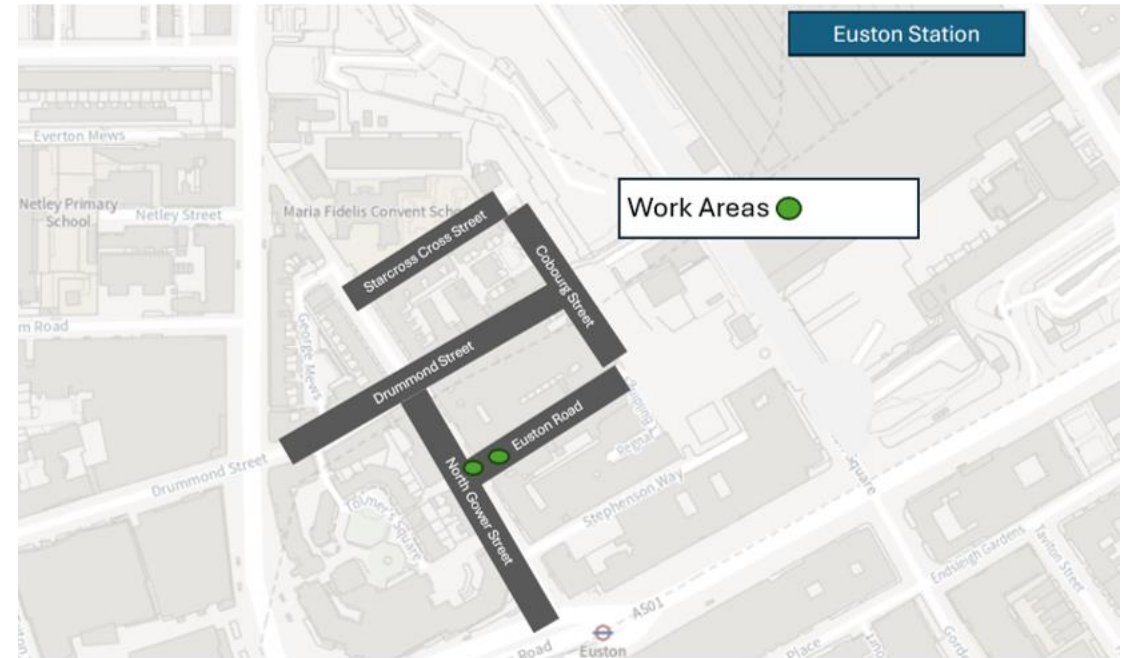

We are carrying out utility diversions on North Gower Street and Euston Street.

Traffic impact:

- Lane closure on Euston Street
- Temporary traffic lights on North Gower Street
- Drummond Street, Euston Street, and Starcross Street accessible via Hampstead Road
- Stephenson Way accessible via Euston Road
- Parking bay suspensions
