Classification - Public

Vehicle Holding Area/ Parkway (SCS)

Cadent Gas diversion works on Parkway – gas mitigation works from 11 November to March 2027

From 11 November 2026 to early March 2027, we will close several lanes on Delancey Street and Parkway. You will now be able to travel straight from Delancey Street to Gloucester Avenue. You will not be able to turn left from Delancey Street onto Parkway.

We will also install new temporary traffic signals at the junction between Parkway and Delancey Street. We will do this work overnight on 11 November 2026. We will replace the current wireless temporary traffic light system with a new hard-wired signal. This will improve connectivity between temporary traffic light signals and reduce the disruption to road users and residents. We will do this work within our traffic management that's already installed on Parkway.

Traffic impact

- Lane and road closures
- Traffic diversions
- Temporary traffic lights and pedestrian crossings
-

Camden Cutting (SCS)

Mornington Street bridge reopened

We reopened Mornington Street bridge to vehicles on 8 January 2024. We have put a 3-tonne weight limit in place which we are managing with width restriction barriers at both end of the bridge.

For safety reasons, Network Rail and SCS will continue to monitor the bridge whilst work continues beneath it.

Please note the bridge will be closed throughout the duration of tunnelling works and we will update you in advance. These are expected to take 5 years to complete.

Traffic impact

- Mornington Street bridge reopened to vehicle traffic with 3-ton weight limit
- Access maintained for cyclists and pedestrians

Euston Throat (SCS)

Hampstead Road bridge construction – 17 October to December 2031

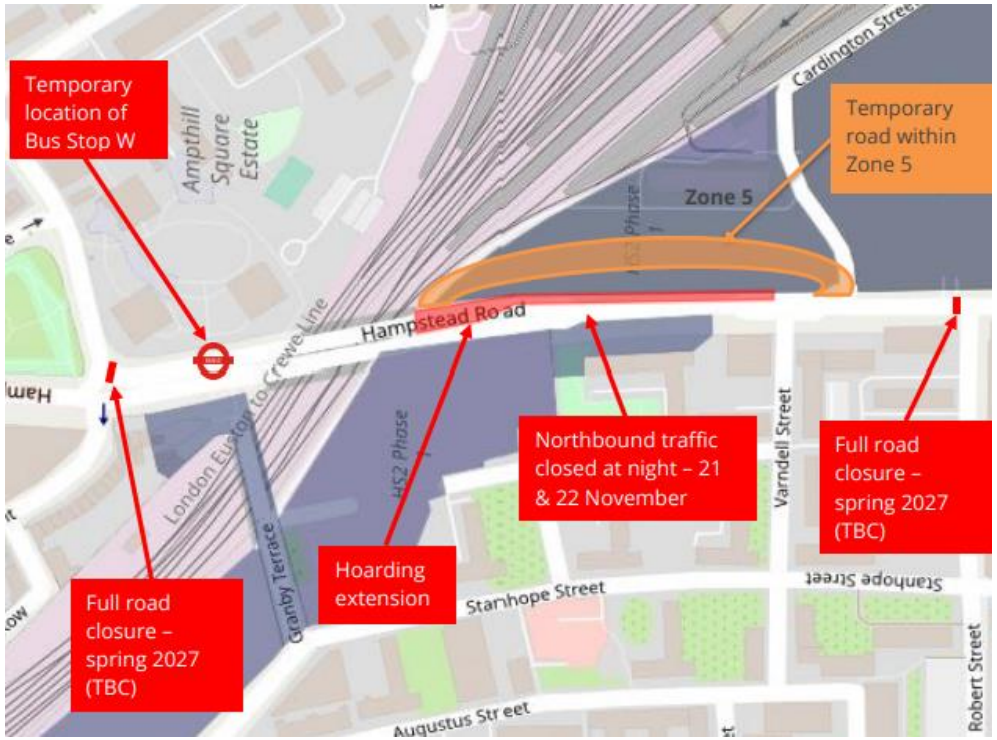

We need to extend Hampstead Road bridge to pass over the newly excavated and extended railway cutting. We'll build a temporary road to the east of Hampstead Road, over the area known as Zone 5 for an uninterrupted traffic flow on Hampstead Road while we extend the bridge. We will carry out these works in phases until 2031.

The first phase will start from 17 October 2026 to January 2027. We will close Hampstead Road for four weeks from January to February 2027. We are looking at options to reduce the duration and impact of the closure. We will provide details of the closure closer to the time, including traffic and bus diversion routes.

After the first full closure, we will need to close Hampstead Road on two more occasions for approximately four weeks each.

Traffic impacts:

- Three 4-week road closures over this period
- Temporary bus stop relocation
- Footpath and lane closures

Notification sent:

- 2 Oct 2026
- 22 Oct 2026

2026

January	February	March	April	May	June	July	August	September	October	November	December

Western Utility Road (WUR) works – 26 October to 20 November 2026

From 26 October we'll close Robert Street, the southbound lane of Hampstead Road below Cardington Street and the pedestrian crossing south of Robert Street. Pedestrians will be diverted to the northbound footpath via a temporary crossing. Please note that once we finish this phase, Robert Street will remain closed for the next phase of the works. We will keep you updated on exact dates.

Access to Regent's Park will be via Varndell Street. Access to Hampstead Road will be via William Road for southbound or Varndell Street for northbound.

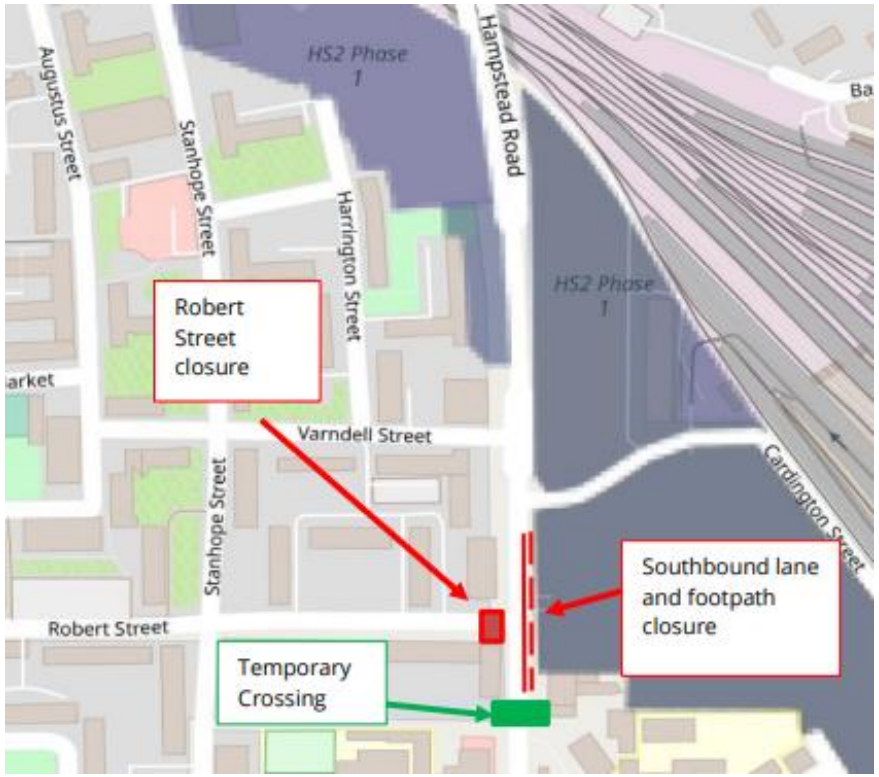

These works are required in preparation for Mace Dragados' (MDjv) Western Utility Road programme, which will run parallel to Hampstead Road (within their site)

Traffic impacts:

- Road, lane and pedestrian crossing closure
- Pedestrian diversion

Notification sent:

- 9 Oct 2026

2026

January	February	March	April	May	June	July	August	September	October	November	December

Preparatory works on Hampstead Road for bridge extension – 14 Nov 2026

As part of our work to extend Hampstead Road bridge, we need to finish works on the northbound footpath. These works will include breaking out concrete, laying a new kerb line, installing the footpath, and resurfacing a section of the northbound lane. We will then install hoarding behind the new footpath ready for pedestrians to use when we close the southbound footpath.

We will work from 8am to 6pm on the following Saturdays: 31 October, 7 November, and 14 November We expect some of this work to be noisy. There will not be any noisy work after 1pm on Saturdays and we'll monitor our levels to ensure we are within approved limits.

Traffic impacts:

- Footpath and partial lane closures
