

Notice of ground investigation works

July 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty and its appointed subcontractors are working on behalf of HS2 Ltd to carry out the next phase of ground investigations work on the western leg of Phase 2b of HS2

What the works involve

Ground investigations works are being carried out to help us better understand the ground conditions along the route to inform the detailed design of the railway. The ground investigation techniques that will be used on this project will primarily include the drilling of boreholes, trial pits and cone penetration tests.

Works in your area

Investigation work is due to begin at sites along the proposed route in High Legh at:

Land to the south of Peacock Lane

How will this affect you?

You may notice some people and equipment on site while we carry out the works.

Covid-19

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
