

Notice of closure of Chesham Lane, Chalfont St Peter

September 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. We will be closing Chesham Lane next to the Chalfont St Peter vent shaft site for 10 days late September into early October. These works were due to take place at the beginning of September but had to be postponed due to the impact of Covid on the highways team.

Why are you doing these works?

As many residents will be aware, the area of Chesham Lane, near to the vent shaft site entrance, has suffered from flooding over a number of years. However, this issue has become worse with the increased rainfall pattern. Our site entrance and its drainage has also added to the water run off onto the opposite side of the road where the water fails to drain away quickly.

What will you be doing?

We have now decided to undertake the repairs needed to resolve the problem. This means digging out and replacing the drainage system in the layby area so water can disperse, improving the general drainage system in this area and resurfacing Chesham Lane at this location.

To undertake this significant work, we will need to close the area of Chesham Lane where the flooding occurs. The closure will be 24/7 from Monday 27 September to Friday 8 October. A local diversion route will be in place.

For safety reasons we will also use the closure to clear some of the vegetation next to the site entrance as it is blocking the view of vehicles trying to exit.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
