

Notice of GPR Surveys – Saltley Viaduct

September 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty Vinci is working on behalf of HS2 Ltd to build the new railway in your area.

Upcoming Ground Penetrating Radar Surveys

We will be carrying out Ground Penetrating Radar (GPR) surveys in locations along Saltley Viaduct B4114 from Wednesday 29 September to Thursday 7 October (excluding weekends). Dates are subject to the progress of the surveys programme.

GPR surveys are non-intrusive, they are completed using a machine which transmits an electromagnetic pulse into the ground. These pulses reflect off features in the ground, allowing us to identify the location and depth of buried utility services.

Road closures

To be able to carry out these inspections safely and effectively, we will need to put in place a road closure with diversion route on Saltley Viaduct B4114. We will also need to close the Saltley Viaduct B4114 roundabout and approach junctions on Adderley Road, Alum Rock Road and Washwood Heath Road from Monday 4 October to Thursday 7 October. All road closures will be in place from 9.00pm to 5.00am. Access to properties and businesses will be maintained at all times.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

HS2 during the Coronavirus pandemic

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current COVID-19 strategy makes clear that construction activity can continue as long as it complies with this guidance.

The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within Public Health England and construction industry guidelines.
