

Overnight surveys on Springfield Lane, Kilburn Priory and Langtry Road

October 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19.

Additional utility surveys

We carried out drainage surveys in your local area in January 2020. We will be carrying out further drainage surveys from 25 to 28 October 2021. These surveys will help us to understand the condition of the drainage system in the area and how best to protect it during construction of the railway. We will investigate the condition of the sewer system using a camera and may need to flush the system if any blockages are found. Your utility services will not be affected during these works. We will also need to revisit the area in mid-November to carry out additional surveys. These works will be notified in due course once details are confirmed.

Temporary road changes on Springfield Lane

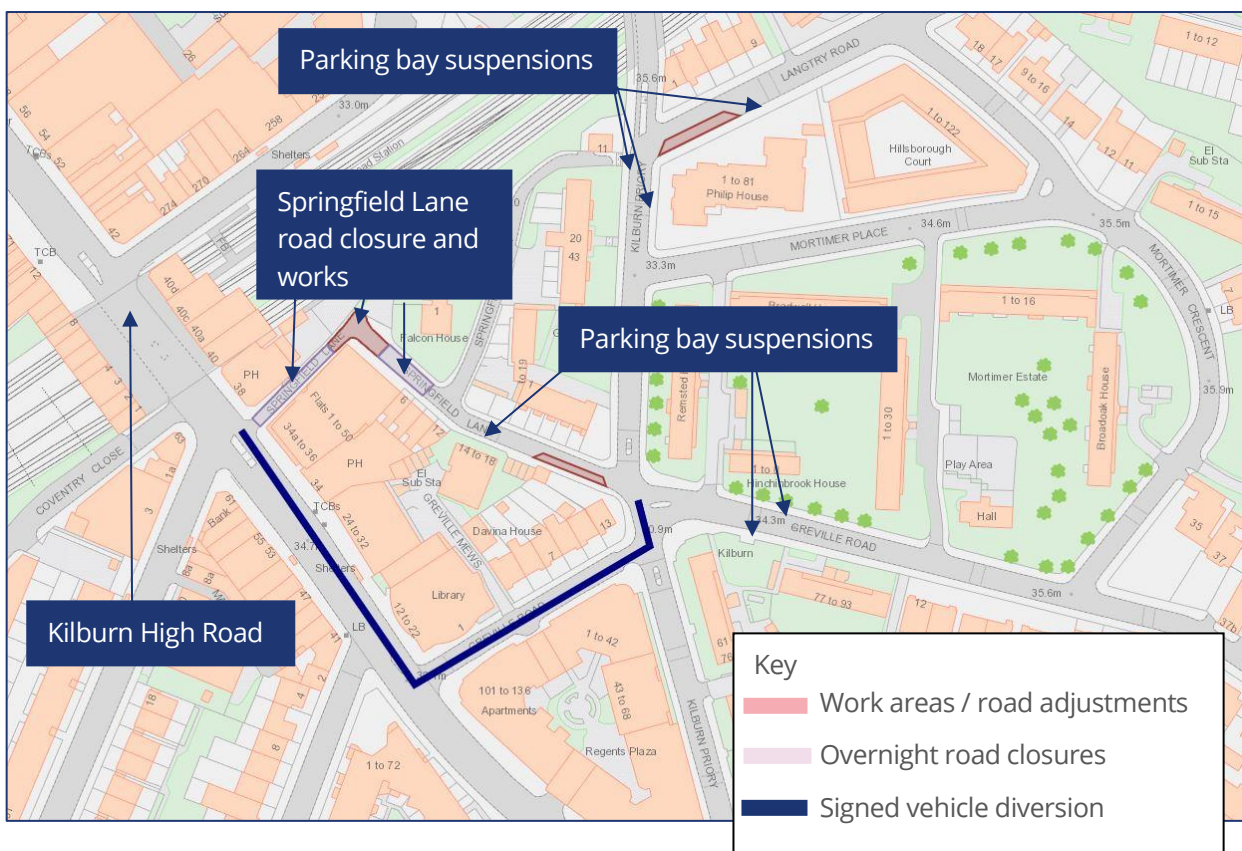

To carry out these works safely, there will be overnight road and lane closures on Springfield Lane with a four-way traffic light system to aid the flow of traffic. The closures will only be in place during our working hours. We will also need to suspend a number of parking bays along Springfield Lane. A signed vehicle diversion route will be in place during the closure. Pedestrian access will not be affected during these works and pedestrian access to local business will be maintained.

Staff members will be on site to assist should residential vehicle access be required to and from Falcon House.

Temporary road changes on Kilburn Priory and Langtry Road

To carry out these works safely, there will be an overnight narrowing of the westbound carriageway on Langtry Road at the junction with Kilburn Priory. The lane adjustment will only be in place during our working hours. We will also need to suspend some parking bays along Kilburn Priory and Langtry Road – these will be clearly marked. Pedestrian access will not be affected during these works.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>
