

Notice of works to the West and East of Euston Station

October 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) guidance on COVID-19. The Government's strategy makes it clear construction can continue as long as it complies with this guidance. All sites remain under constant review. You can sign up for regular updates in your local area at: HS2inCamden.co.uk

Sewer survey until December 2021

From **mid -November until December 2021** we be carrying out sewer surveys at various locations. The following pages of this notice include when and where we'll be carrying out some of these surveys, which will help us determine their conditions. It is important that we carry out these so that we can plan our construction work effectively and reduce its effects. We will write to you again in the future with details of when the main sewers work will begin.

Overnight Transportation of Piling Rig

We wrote to you in September 2021 regarding the transportation of a piling rig crane and excavator (HS2-MW-MD-Ph1-Eu-St-S3-Prog-works-27-09/08/2021). We need to temporarily close Drummond Street (pedestrian corridor) at night again to move this equipment across our site.

Interim taxi rank construction

We also wanted to use this notice to provide a reminder and update regarding the ongoing works at the above location.

To facilitate these works, we are continuing with our enabling works and we will write to you again in the future with details of when the main construction works begins.

Please continue to read the rest of this notification for further information about each location.

Notification

Working hours:

- 8am to 6pm weekdays excluding bank holidays (with an hour either side of these times to set up and close down the site)
- 8am to 1pm Saturday
- Some night-time works will be required.

What to expect:

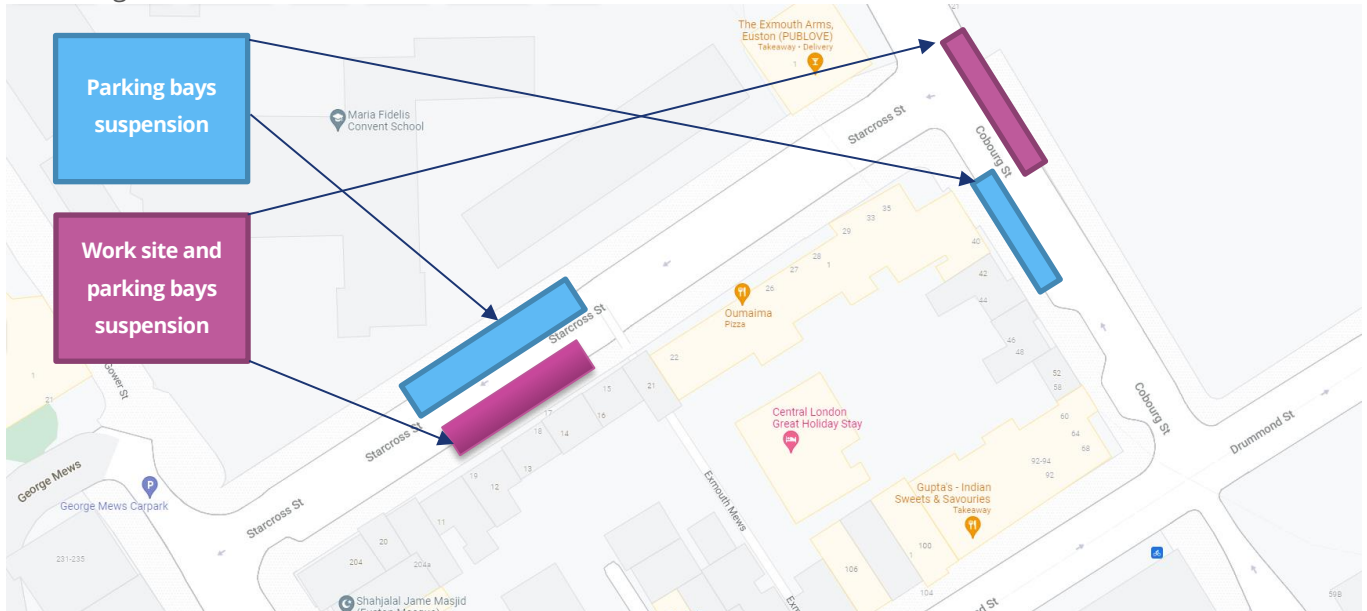

- Alterations to public walkways;
- Suspension of parking bays;
- Drilling, excavations in work sites.

What we will do:

- Create temporary work sites where surveys and investigations are taking place; and
- We may install temporary signage on the roadside.

Starcross Street sewer survey from mid November 2021 for one week

To access the Starcross Street sewer we will insert a camera into the manhole on Cobourg Street and take photographs of the sewer. To facilitate this work, we need to temporarily suspend a total of 12 parking bays on Starcross Street and Cobourg Street – as shown below. **The roads will remain open for vehicle access, pedestrian access and access to businesses will be maintained. These works will begin from mid-November for one week.** The main sewer works will begin in 2022 and we will write to you again confirming the timing of these works.

What to expect

We will closely monitor all noise, vibration, and dust levels to ensure we do not exceed our agreed limits. These works will not affect utilities connections in the areas. Please note that changes to the programme may occur, and if these changes are likely to cause any disturbance, we will write to you again.

Works will include:

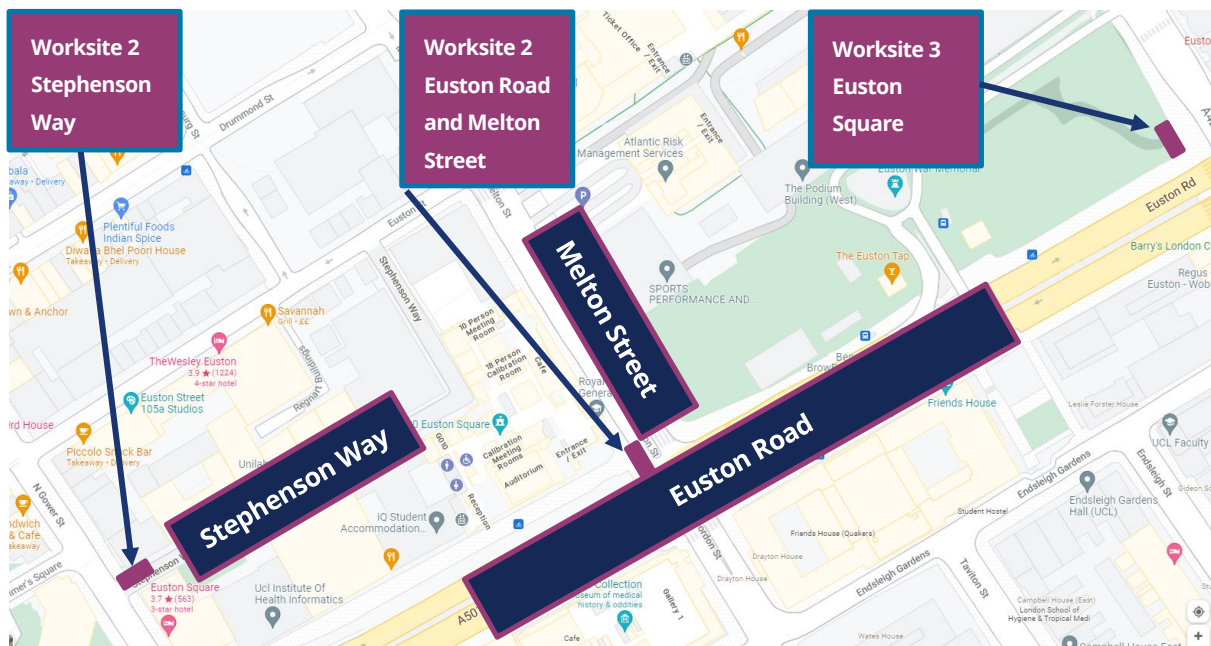

- We will insert a camera into the manhole;
- Have a water tank onsite to clean the sewer;
- Temporary sites will be set up around the work areas
- Heras fence panels will be fitted with acoustically rated panels/curtains around the worksite;
- Delivery and removal of materials to and from site; and
- We will work to minimise disruption wherever possible.

Working hours

- 8am to 6pm weekdays (excluding bank holidays);
- 8am to 1pm Saturdays; and
- We will start-up and close-down activities up to one hour before and up to one hour after normal working hours above.

Thames Water fleet sewer surveys from late November and continue until late December 2021

To enable the Thames Water fleet sewer survey, **we need to set up temporary worksites on Stephenson Way, Euston Road and Euston Square – as shown below.** We will carry out **these activities at night** when pedestrian flow is less. The worksites will be reinstated daily allowing the public to use it and closed at night whilst we carry out the works. **The roads will remain open for vehicle access, pedestrian access and access to businesses will be maintained.** At each location we will enter the sewer to collect wall and soil samples. This type of survey will help us understand the strength of the wall and the type of soil. The result of these surveys will inform the pedestrian link to the HS2 station. **These activities will begin from late November and continue until late December 2021.**

What to expect

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable, but every effort is made to minimise any unnecessary noise. We will closely monitor all noise, vibration, and dust levels to ensure we do not exceed our agreed limits. These works will not affect utility connections in the areas. Please note that changes to the programme may occur, and if these changes are likely to cause any disturbance, we will write to you again.

Works will include:

- Entry into the sewer;
- Compressor situated on Melton Street will power the handheld machine used to collect samples of the soil and wall;
- Heras fence panels will be fitted with acoustically rated panels/curtains around the compressor;
- Delivery and removal of materials to and from site.

Working hours

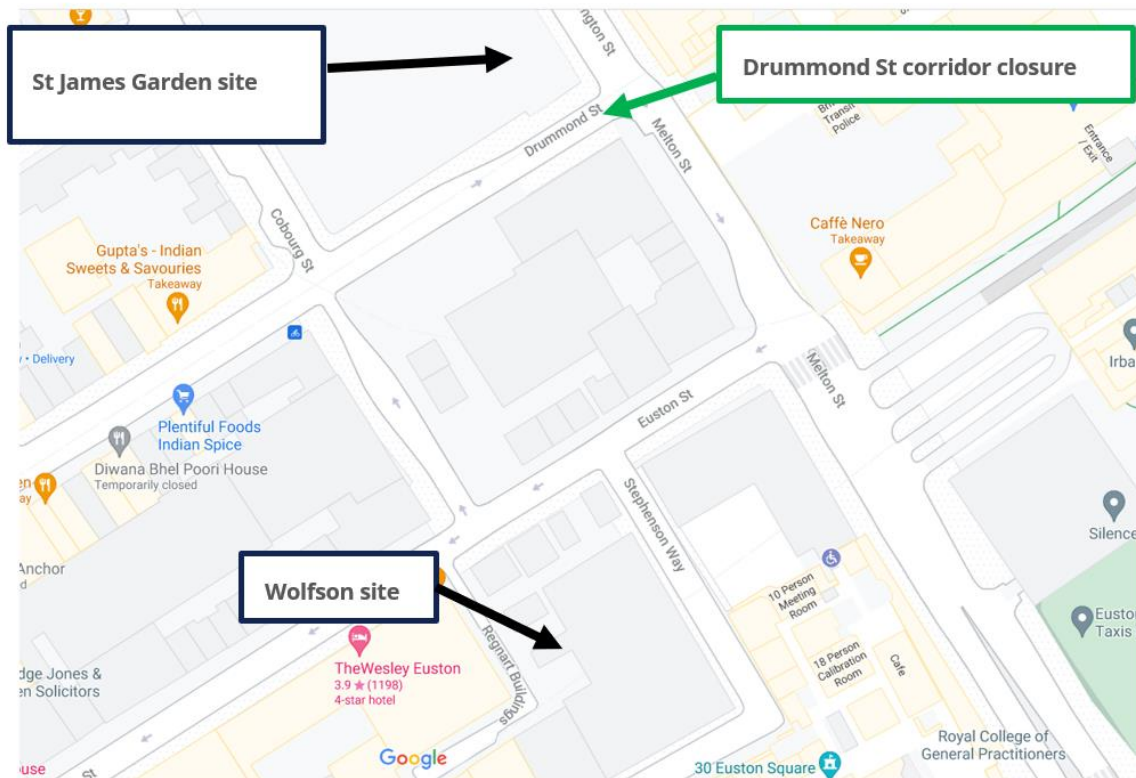

- Weekdays and weekends from 10pm to 5pm
- We will start-up and close-down activities up to one hour before and up to one hour after working hours above.

The above works are not expected to be noisy and we will work to minimise disruption wherever possible.

Overnight Transportation of Piling Rig mid- November until late November 2021

From **mid- November until late November 2021** we need to temporarily close Drummond Street (pedestrian corridor) **for 1 hour between 1:30am until 7am** each week. This is to facilitate the removal of a piling rig, crane and excavator from the Wolfson site to St James Garden site. At the same time, we will remove some of the hoarding panels to create room for the materials to be transported through the area. Because of the live railway these activities can only be carried out when the trains are not running.

What to expect

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable, but please be assured that every effort is made to minimise any unnecessary noise.

Works will include:

- Removal of a piling rig, crane and excavator

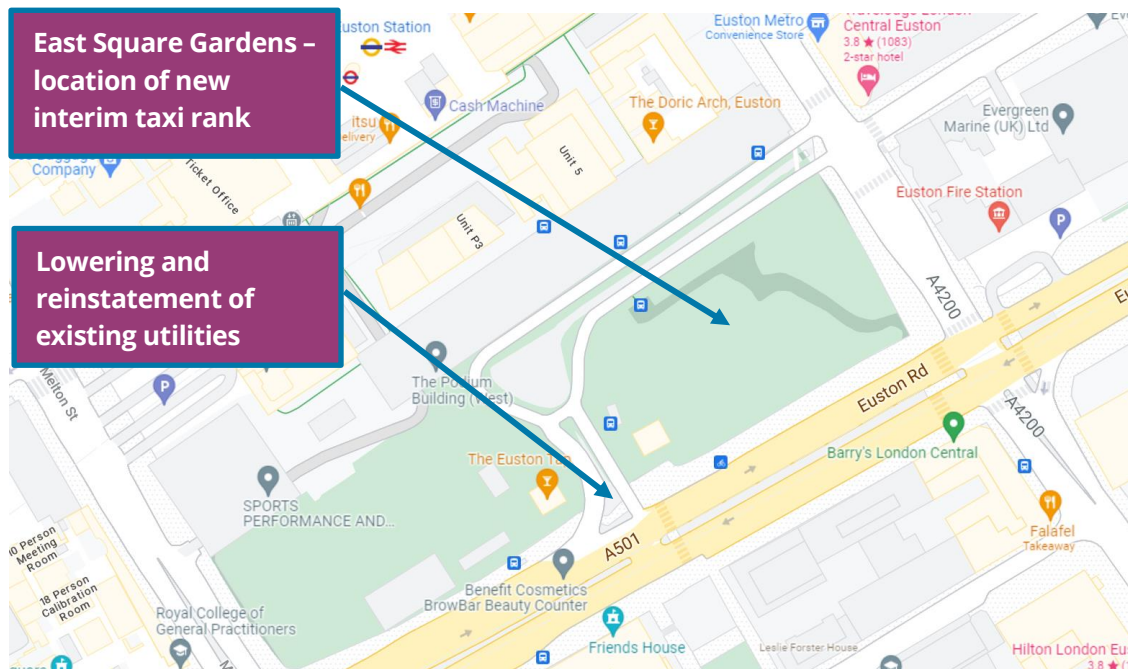

Working hours

- 1:30am until 7am

The above works are not expected to be noisy and we will work to minimise disruption wherever possible.

Interim taxi rank construction

We previously told you about our works to construct an interim taxi rank facility in the east side of Euston Square Gardens and now wanted to let you know that these works are progressing and the enabling works will continue until late December 2021. The main construction works will begin in 2022 and we will write to you again confirming the timing of these works.

What to expect

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable, but every effort is made to minimise any unnecessary noise. We will closely monitor all noise, vibration, and dust levels to ensure we do not exceed our agreed limits. These works will not affect utility connections in the areas. Please note that changes to the programme may occur, and if these changes are likely to cause any disturbance, we will write to you again.

Works will include:

- Concrete and tarmac breakout;
- Use of pneumatic picker and a light pneumatic breaker mounted on a mini-excavator. Any dust created will be controlled using water;
- Lowering and reinstatement of existing utilities;
- Heras fence panels will be fitted with acoustically rated panels/curtains around the worksite; and
- Delivery and removal of materials to and from site.

Working hours

- 8am to 6pm weekdays (excluding bank holidays);
- 8am to 1pm Saturdays;
- Intermittent delivery of materials to site before 7am and after 7pm for materials not permitted on London roads during the day and;
- We will start-up and close-down activities up to one hour before and up to one hour after normal working hours shown here

We will work to minimise disruption wherever possible.

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at:

www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at:
residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing:
complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting:

www.gov.uk/government/collections/hs2-property

Find out if you're eligible for compensation at:
www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website:
www.hs2.org.uk/how-to-complain

Reference Number: HS2-MW-MD-Ph1-Eu-St-S3-Prog-works-30-25/10/2021
