

## Notice of ground investigation surveys – Nechells ward

September 2021 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new railway in your area.

### Upcoming ground investigation surveys

We will be carrying out ground investigation surveys in the local area from October 2021 until June 2022. These surveys will be carried out within or close to our sites in the Nechells ward. This will include areas of land on or near the following roads:

- Duddeston Mill Road
- Inkerman Street
- Alma Crescent
- Dollman Street
- Erskine Street
- Viaduct Street
- St James Place

These surveys will help us to understand more about the ground conditions where we want to build the new railway. The surveys will involve taking soil samples and boring trial holes in different locations. To complete our survey works we will transport drilling rigs to site by trailer. Drilling rigs will then be positioned on site and our workforce will travel to site every day by a 4x4 vehicle.

### HS2 during the COVID-19 pandemic

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

### Duration of works

October 2021 – June 2022  
working hours 8am – 6pm  
Monday to Friday and  
8am -1pm Saturday

Our workforce can be on site up to 1 hour before work begins to set up the site and again afterwards to take down our work equipment.

### What to expect

We will install temporary fencing to our work sites in the area where we are working.

Low levels of noise from work we are completing.

### What we will do

Ensure that our work areas are safe and secure.
