

Notice of lane closure A41 and Blackgrove Road crossing

September 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. We continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review. You can sign up for regular updates in your local area at www.hs2inbucksandox.co.uk.

What are we doing?

As part of our continued preparatory works for our A41 compound there will be lane closures on the A41 Bicester Road for approximately two weeks. These lane closures are necessary to safely establish the permanent power connection to the works compound by UKPN.

We will work to open the lanes to reduce disruption as soon as possible.

We have also completed our haul and access road crossing point on the Blackgrove Road. All plant crossings, without exception, will be signal controlled. Traffic lights will only be operational during normal working hours, 8.00am to 6.00pm, and will be in use for the full duration of our works.

When will these works take place?

The A41 Bicester Road will have lane closures starting Monday 11 October.

The A41 Bicester Road Eastbound will have a lane closure for three days. The A41 Bicester Road Westbound will have a lane closure for seven days.

Works will take place between 8am and 6pm – Monday to Friday. Some additional weekend work may also take place.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

What will the access and haul road crossing point look like?

The Blackgrove Road crossing point is now complete. The crossing point has gates in place to keep local traffic separated from construction traffic. This enables us to keep plant and vehicles within the construction site and off the road network. The crossing point is also signal controlled and to reduce disruption as much as possible, traffic lights will only be operational during normal working hours, 8.00am to 6.00pm. They will be in use for the full duration of our works.
