

# Notice of main works construction on the Curdworth Box

September 2021 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new high speed railway in your area.

## What work will be taking place

In July 2021 we sent out a notification outlining works to create a piling platform to enable the construction works of the Curdworth Box. Once constructed the Curdworth Box will carry HS2 over the existing network rail line. The piling platform for this has been constructed and we will now be undertaking the piling works in our works area off Faraday Avenue. The piling will allow us to provide a support for the Curdworth Box structure to be built on top of. Throughout these works we will continue to bring deliveries through the Newlands Farm entrance.

## Duration of the works

The works will begin on Tuesday 26 October 2021 and will continue until April 2022. We will be working within our core hours of 8.00am – 6.00pm on weekdays and 8.00am – 1.00pm on Saturdays.

## HS2 during the COVID-19 pandemic

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
