Notice of overnight road closure along the A446 and associated lane closures

November 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are carried out by a joint venture between Laing O'Rourke and J. Murphy & Sons known as LM. In your area, we are working near the A452, A45 and M42, which surround the site of the future HS2 Interchange Station.

We're improving the local road network

When the future HS2 Interchange Station is operational, four new highways bridges will connect the current road network to new routes we are creating. The second of these new highways bridges was safely installed in October 2020 over the A446. This year, we'll carry out various activities to fully complete the construction of these bridges including monitoring before ownership is handed over to the highways authority.

We'll be starting work on Monday 29 November

To carry out this work safely, we'll install temporary, overnight lane closures along short sections of the A452 northbound and A446 southbound, leading into a road closure along the A446 southbound and northbound from **Monday 29 November to Wednesday 1 December**. Our working hours will be **8pm to 6am**.

A signed diversion route will be in place for road users during this road closure. Our contractors may be on site up to an hour before and after these times to set up and close down the site.

HS2 during the coronavirus pandemic

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current strategy makes clear that construction activity can continue if it complies with this guidance.

The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses across Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
