# Update notice of construction at South Ruislip ventilation shaft site

High Speed Two (HS2) is the new high speed railway for Britain.

We are following Government and Public Health England (PHE) advice on working safely during the pandemic. As we increase face to face engagement, in addition to virtual engagement, we will ensure all events and meetings adhere to the guidelines. The health and safety of our workforce and the communities we work within is our priority. If you have any questions about this, please contact our Helpdesk to find out more [hs2inhillington.co.uk](https://hs2inhillington.co.uk).

## What we are doing

We wrote to you in June to inform you that construction to build the ventilation shaft would commence. This work continues as we construct the diaphragm wall for the shaft and excavate to 35 metres below ground level.

- From 3 December 2021 to 4 June 2022, we will be excavating and concreting Monday to Friday, 24 hours a day and Saturdays 8am to 8pm.

In preparation for installation of a water pipe being installed to Yeading Brook, de-vegetation will be required to clear the railway embankment.

- On 5 December 12am to 7am, the initial de-vegetation will take place outside of core hours in the area shown on the map overleaf.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

The team will use electric powered lighting and equipment to reduce the noise and impact on the local community.

We would like to apologise in advance for any disruption or inconvenience this may cause. Every effort is being taken to ensure that these works are carried out in the least impactful way. We will ensure that disruption is kept to a minimum.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
