Ongoing works at the former National Temperance Hospital site

We wrote to you in November 2021 to provide an update on the ongoing works at the former National Temperance Hospital site (HS2-MW-MD-Ph1-Eu-St-S3-Prog-works-32-23/11/2021). Work continues to progress, and we will be undertaking a number of primary activities from mid-January 2022 until July 2022 (we will notify you if this changes). The primary activities include the removal of hoardings, surface finishes and reinforced cement slab, the removal of the retaining walls and pile caps, removal of petrol station tanks and installation of a piling mat. Please see the plan overleaf detailing the primary activities within the site boundary.

We anticipate these works to be noisy, however we will do everything reasonably practicable to minimise noise disruption. This includes use of Heras fence panels which will be fitted with acoustically absorbent blankets around the immediate working areas, use of methods that generate lower levels of noise and vibration as far as is practicable including "press-in" or hydraulic jacking and pulveriser and many others.
