

Notice of CCTV drainage works update, A413, London Road

January 2022 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. We are following Government and Public Health England (PHE) advice on working safely during the pandemic. As we increase face to face engagement, in addition to virtual engagement, we will ensure all events and meetings adhere to the guidelines. The health and safety of our workforce and the communities we work within is our priority. If you have any questions about this, please contact our Helpdesk to find out more. All sites will remain under constant review. You can sign up for regular updates in your local area at www.hs2inbucksandox.co.uk.

What are we doing?

Following on from our CCTV drainage surveys in December, we will be carrying out further exploratory CCTV drainage surveys along a section of the A413 London Road.

These surveys will provide us with information on the condition and location of the utility services and help us to decide how best to protect them while we are building HS2. These works will also enable us to understand the levels of silt within the system by using a small CCTV camera mounted on a small robot.

There will be temporary traffic management during the week, in the form of a lane closure on the A413, London Road while we carry out these essential surveys.

When will these works take place?

The A413 London Road will have temporary traffic management from 9.00am to 3.00pm, Wednesday 26 January to Tuesday 1 February, for CCTV drainage works. Traffic management is not expected to be in place over the weekend.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk
