

Notice of Utility Ground Investigation Works

January 2022 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

What are we doing?

In January, Western Power Distribution (WPD) need to carry out some ground investigation works, to enable the diversion of our 11,000 volt overhead line to underground cable.

This will involve drilling 3no. boreholes into the ground so we can ascertain the make-up of the soil and rock construction in the area.

These works are anticipated to take 5 days.

How will this impact you?

There will be minimal impact on the surrounding area. The works will be confined to private land but you will see vehicles & equipment in the field. To access the area we will be using an existing access point from Crackley Lane.

HS2 during the coronavirus pandemic

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current COVID-19 strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434
