# Notice of CCTV drainage works, Southam

February 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. We are following Government and Public Health England (PHE) advice on working safely during the pandemic. If you have any questions about this, please contact our Helpdesk to find out more. All sites will remain under constant review. You can sign up for regular updates in your local area at [www.hs2inwarwickshire.co.uk](http://www.hs2inwarwickshire.co.uk).

### What are we doing?

Throughout March, we will be carrying out a series of CCTV drainage surveys on the A423 Banbury Road and the B4451 Kineton Road.

The CCTV surveys will provide us with information on the condition and location of the utility services and help us to decide how best to protect them while we are building HS2. These works will also enable us to understand the levels of silt within the system by using a small CCTV camera mounted on a small robot.

In order to carry out these works safely, we will need to introduce temporary traffic management in the form of a temporary lane closure with traffic lights on the A423 Banbury Road and the B4451 Kineton Road. Short sections of the highway will be affected, at various locations, as our survey team carry out the work.

Your utility services will not be affected during this time. To enable access to areas of our site some vegetation clearance in these locations will also take place.

### When will these works take place?

In March, the **A423 Banbury Road** and the **B4451 Kineton Road** will have temporary traffic management, 8.00am to 6.00pm, Monday – Friday.

As a contingency, should we be unable to conduct these works due to circumstances outside of our control, we may also need to book traffic management measures on these roads in the following weeks.
