March 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. We are following Government and Public Health England (PHE) advice on working safely during the pandemic. The health and safety of our workforce and the communities we work within is our priority. If you have any questions about this, please contact our Helpdesk to find out more. You can sign up for regular updates in your local area at [engagement.hs2.org.uk/join-mailing-list/](https://engagement.hs2.org.uk/join-mailing-list/).

### What are we doing?

As part of our continued preparatory works, we will be fully closing a section of road known as the Steeple Claydon to Twyford road.

We are required to fully close the road known as the Steeple Claydon to Twyford Road for the duration of the works. This is for the safety of road users and our staff. Main points regarding the road closure and works:

- Access will be maintained for local residents and utility services will not be affected;
- **Commence temporary utility diversion works and tie-ins**, this work is to move the existing utilities from the highway to allow the new bridge to be constructed;
- **Steeple Claydon to Twyford Road** diversion, we plan on commencing these works mid-April, we need to construct a new highway to the north to temporarily divert the traffic from the Overbridge works area, this means the road isn't closed for a long duration whilst we complete the west street overbridge works;
- **Steeple Claydon to Twyford overbridge**, we plan on commencing this mid-2022 to begin the structural works for the new bridge, by closing the road we can complete the temporary diversion and commence these works;
- **Crossings**, we are constructing multiple signal controlled crossing points where our internal road network meets the local highway.

### When will these works take place?

The Steeple Claydon to Twyford Road will be fully closed, 24 hours a day, from Monday 21 March to September 2022, with a diversion in place.

Due to circumstances outside of our control, such as weather, these dates may be subject to change.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
