

# Notice of traffic management on Gilson Road

March 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI (BBV) is working in partnership with HS2 Ltd to build the new high speed railway in your area.

## The work we will be completing

BBV will complete vegetation clearance works in areas near Gilson Road. The works will be completed in preparation for construction of the railway. All necessary permits will be in place prior to works being complete and where necessary, ecological surveys will be conducted prior to and during the works.

The vegetation clearance works will take place from Monday 4 April until Saturday 23 April.

In order for us to carry out works close to Gilson Road safely, we will install a temporary two-way traffic light system here from Monday 18 April until Saturday 23 April. This traffic management is subject to consents. **(The location of this traffic management is shown below.)** Our working hours will be 9.30am until 3.30pm Monday to Friday and 9.30am until 1.00pm on Saturday.

## COVID-19

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
