

## Notice of utility diversion works and road closure on Tittensor Road, near Swynnerton

March 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable gas supply, Cadent is moving an underground gas pipeline near the A51, north-east of Swynnerton.

Since February, Cadent has been carrying out some preparation activities on land off Tittensor Road. We expect all work to be completed by September 2022.

### What are we doing?

In early April 2022, we will be setting up our temporary works compound and parking area on land north of Swynnerton, and our main site access off Tittensor Road. We will then be starting main work to move the pipeline on land south of A51.

This will involve digging a trench for the new pipeline. We will then weld the new pipe together before installing it in the trench and connect and test the new pipe. There will not be any disruption to your utilities during our works.

Standard construction vehicles and equipment will be used, and all work will take place inside usual working hours. Vehicles will be travelling via the A51 to reach our main site access off Tittensor Road, and secondary access off Stab Lane. The secondary access will only be used occasionally.

### How will this affect you?

Subject to approval from Staffordshire County Council, we'll need to close Tittensor Road from 4 April 2022 for around 5 days, to maintain safety while we set up our main site access. A diversion route will be in place during this time (see map overleaf) and clearly signposted. The road will be open to traffic in the evenings, although temporary two-way traffic lights will be in operation.

Once we reopen Tittensor Road, a reduced speed limit of 30mph will be in place along the road until our work is complete in September 2022. This has been agreed with Staffordshire County Council.

### Covid-19

We are working in line with Government and Public Health England (PHE) advice on working safely during the pandemic. For all events and engagement, we will carry out a risk assessment and put in place control measures to manage the risk of Covid-19 to the public and our staff. If you have any questions about this, please contact our Helpdesk to find out more. The health and safety of our workforce and the communities we affect is our key priority.

## About our Community and Business Funds

Two funds are now open for applications from local communities and businesses affected by the construction of HS2. They are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF). £5 million has been allocated to the funds for phase 2a of the railway.

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
