Notice of STW Construction Works

April 2022 www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

What are we doing?

Severn Trent need to carry out work in Erskine Street on their assets. The work will include excavating across the bottom of Erskine Street into Inkerman Street. Once the work is complete reinstatement of the highway will take place and the lane closure will be removed. In order to undertake the work safely a two-phase traffic management set up will be installed. Phase 1 will be from 18 April 2022 until 6 May 2022 and Phase 2 will be from 6 May 2022 until 27 May 2022. A further day of testing will be carried out on 13 June 2022. The traffic management set up will ensure access is still maintained to Villamead Ltd and Mid-Fab.

How will this impact you?

Severn Trent will be working in the area highlighted red on the image below, there will be clearly signed lane closures and working areas.

All activity will take place in a securely fenced-off area and you may see an increase in construction traffic during the works.

Severn Trent has a responsibility for delivering water and sewerage services to homes and businesses across the region, and to ensure that the impact of any work is kept to a minimum.

HS2 during the coronavirus pandemic

We are continually reviewing the work on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current COVID-19 strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
