

Update: weekday 24 hours works in Camden Cutting

April 2022 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

We are following Government and Public Health England (PHE) advice on working safely during the pandemic. As we increase face to face engagement, in addition to virtual engagement, we will ensure all events and meetings adhere to the guidelines. If you have any questions about this, please contact our Helpdesk to find out more.

Update: 24 hour works in Camden Cutting worksite

We are carrying out a trial in Camden Cutting worksite, to test one of the methods we will use to reduce ground movement during tunnelling in the Euston Approaches.

The trial was planned for late February to early April, but **due to delays will now be carried out from April to June (about two months).**

This method involves injecting grout (similar to concrete) beneath the ground at high pressure. The grout strengthens the ground and reduces movement by filling small underground cracks and crevices.

Once we begin injecting the grout, we must continue until the section is complete, so it doesn't dry out. **For this reason, we will carry out the trial up to 24 hours a day, Monday to Friday.**

We are carrying out the trial in an underground shaft. These works will not be noisy, and we do not expect residents to notice the trial.

For more information please see the previous notice 'Works on Park Village East and Camden Cutting worksite' (February 2022).
