

Notice of WPD construction works in Bickenhill, June to August 2022

May 2022 www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

What are we doing?

In order to prepare for the future Interchange Station and railway, Western Power Distribution need to carry out work near Park Farm on Packington Lane Bickenhill.

The work involves installing new cable. The work will also include minor excavation in the Southbound carriageway verge of Packington Lane.

To undertake the work safely the works area will be segregated from vehicles and pedestrians. Access to local businesses will be maintained throughout the works.

How will this impact you?

Western Power Distribution will be working in the area-highlighted yellow on the map on Page 2.

No traffic management is required for these works. Access to all properties will be maintained.

Western Power Distribution has a responsibility for delivering electricity services to homes and businesses across the region and will ensure that the impact of any work is kept to a minimum.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities can apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
