

# Update: Atlas Road Roundabout works

August 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain.

As we introduce face to face engagement, which is in addition to the ongoing virtual engagement, we will continue to follow government guidance on reducing the spread of Covid-19. The health and safety of our workforce and the communities we work within is our priority.

## Utility asset protection at the Atlas Road Roundabout

Throughout 2021/22, HS2 contractor CSJV have been carrying out works at the Atlas Road roundabout to provide protection to utility assets prior to the construction of the Atlas Road Logistics Tunnel (ARLT). Please see the link below for frequently asked questions in relation to the ARLT.

From summer 2022, these works at the Atlas Road roundabout will transfer from CSJV to the SCSJV contractor. These works had been programmed to finish in Autumn 2022. Unfortunately, there have been delays due to various complications, for example obstacles below ground, which have resulted in delays to the delivery programme. The current programme of works is due to be completed by SCSJV (once handed over to us) by the end of this year.

## What to expect

Until the end of 2022, temporary traffic management will be in place during various phases on the Atlas Road roundabout and adjacent roads.

These works will include commissioning and abandonment works for the water and gas assets below ground as well as relining the current sewer structure. Excavation works will be required but are not expected to be as significant as the previous works.

You can view more information about the location of these works on the following pages.
