

# Update on Old Oak Common concrete works

## HS2-OOC - SCP-26-1743

### Location

Within Old Oak Common Station mostly within the HS2 Station and the external station areas. See map on page 2.

### Duration

Ongoing until July 2026.

### What we are doing

Pouring concrete to build the platforms, walls, cores and other structural elements of the underground HS2 station at Old Oak Common.

### What to expect

Concrete will be poured on location, and some prefabricated elements will be delivered to site.

There will be some abnormal deliveries which will arrive on-site in the early morning before 8am to not disrupt traffic.

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help you. Should you have any questions or concerns about our works you can contact us by:

## Additional information

Concrete works in the underground High Speed Station Box of Old Oak Common are continuing following the completion of excavation back in June 2024. Concrete pours are taking place on-site, with some pre-cast elements being delivered. This is to construct the walls, platforms, cores, and other elements of the future HS2 station and of the public realm.

Other concrete works include works on the Conventional Station notified in the AWN: Update on Old Oak Common Conventional Station Works (ref: HS2-OOC - SCP-26-1734)

Oversized deliveries of pre-cast concrete elements will occasionally arrive in the early mornings before 8am onto site in order to limit impacts on local traffic. We will monitor and mitigate noise and dust coming from the concrete works.
