

Notice of trial trenching works Ingestre, Stafford

September 2022 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Working on behalf of HS2 Ltd, the British Pipeline Agency is carrying out site surveys and assessments in the Ingestre area.

What we are doing

Due to the future planned HS2 railway development works, the British Pipeline Association has been asked to divert an existing pipeline in the Ingestre area.

In preparation for these diversion works, during September 2022, we will be carrying out initial archaeological investigations. The work includes excavating a trench and assessing the soils for archaeological artefacts.

How will this affect me?

Works will take place in Ingestre, mostly within rural fields. For all the activity, we will work from 8am to 6pm Monday to Friday. As the works are largely within rural fields, there should be minimal disruption to the local community, with a slight increase in construction traffic.

Covid-19

We are continually reviewing the works on our construction sites in line with the Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current coronavirus strategy makes clear that construction activity can continue as long as it complies with this guidance. The health and safety of our workforce and the communities we affect is our key priority. Please be assured that sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk
