**Work between Euston Station
and Primrose Hill tunnels**
1 June 2023 to 31 August 2023

T: 03457 11 41 41

May 2023

Dear neighbour,

Area reference: LEC1 – 0m 00yds to 2m 0029yds

Over the coming months we will be bringing some of the work for HS2 in the Euston area to a safe stop. There is still other vital work that needs to continue in preparation for High Speed 2 (HS2) that we cannot pause. To keep our staff safe, we may need to work at times that cause the least disruption to train services and passengers which can include weeknights and weekends. We're sorry if our work disturbs you. We'll make every effort to reduce disturbance where we can. We'll put noise barriers up where it is safe to do, use silenced generators and have continuous noise monitoring to ensure that noise levels are kept within agreed limits. Our staff will also be regularly briefed on the importance of working responsibly in the local community.

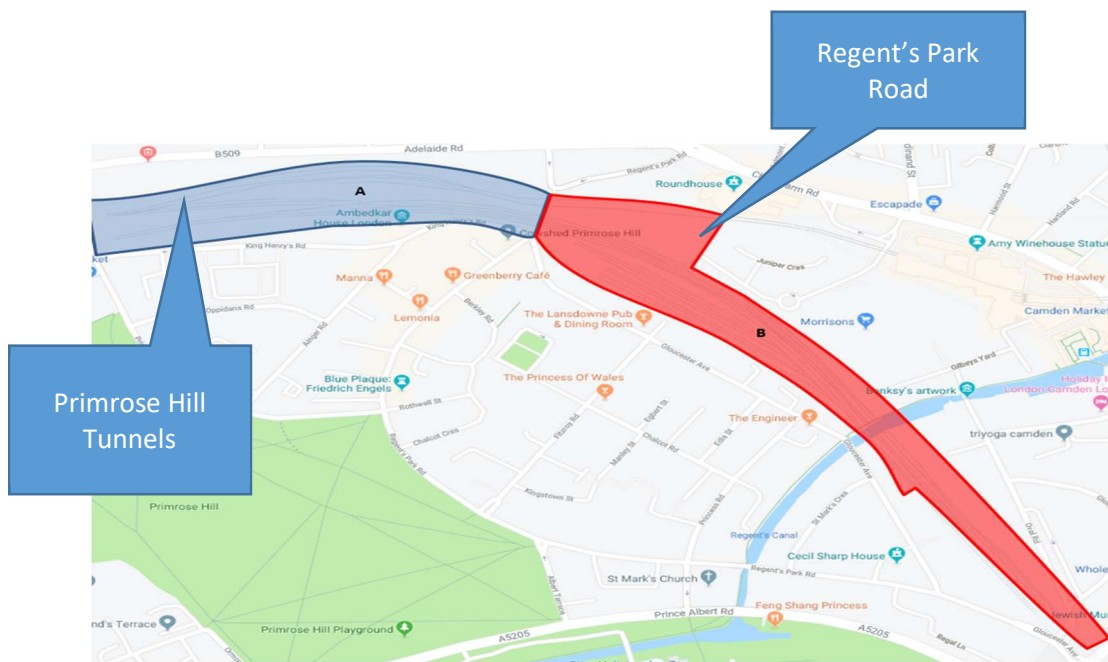

If any of our plans change, we'll advise you via the **HS2 in Camden** website. Please sign up to receive news alerts at: www.HS2inCamden.co.uk

How you can contact us:

If you have any queries or complaints about our work, please telephone our 24-hour national helpline on **03457 11 41 41** and we will be happy to help you. To help us identify the location of the work and provide you with a timely response, please quote the area reference shown at the start of this letter. You can also email NRHS2@networkrail.co.uk.

Kind regards,

Myall Hornsby
Community Relations Executive
Network Rail (HS2 enabling work)

***Please note – there is no planned work for areas B, C & G**

Area A – Primrose Hill Tunnels to Regents Park Road			
Dates	Working hours	Contractor	Intended work

	Weekday nights & Weekends (Possession & Engineering hours)		Euston Station work – B1 North <ul style="list-style-type: none"> Strengthening of structural steelwork Installation of staircase Boring of test trial holes
	Possession works (weekends and nights)		Euston Station work – B1 North <ul style="list-style-type: none"> Removal of steel structure from parcel deck by rail

Other work in your area:

As part of the continuing Euston Station redevelopment there will be some heavy demolition work happening whilst we continue to take down the old parcel deck at the northern end of the station and make it safe to stop work. We will work closely with the contractors to mitigate the noise generated as much as we can. There will also be contractors drilling test boreholes in several areas within the Euston footprint during this notification period

Whilst major excavations to construct the Euston Approaches tunnels, concrete box and railway cutting are delayed, SCS continues work to extend Granby Terrace and Hampstead Road bridges and to prepare for tunnelling. Surveys and noise insulation installations are also continuing. HS2 has paused the new welfare building and the second lay-by planned for Park Village East. Utility works at Parkway – which will involve traffic management on Parkway, Albert Street and Delancey Street – have also been paused.

SCS will continue to provide residents with advance notice of construction impacts before they begin works. If you have any queries about the HS2 construction work, please contact the HS2 helpdesk, which is available 24 hours a day, on **08081 434 434** or email **HS2enquiries@hs2.org.uk**
