**Work between Euston Station  
and Primrose Hill tunnels**  
**1 March 2023 to 31 May 2023**

T: 03457 11 41 41

**24<sup>th</sup> February 2023**

Dear neighbour,

**Area reference: LEC1 – 0m 00yds to 2m 0029yds**

Over the coming months, we'll be carrying further work to prepare the way for High Speed 2 (HS2). To keep our staff safe, we may need to work at times that cause the least disruption to train services and passengers which can include weeknights and weekends. We're sorry if our work disturbs you. We'll make every effort to reduce disturbance where we can. We'll put noise barriers up where it is safe to do, use silenced generators and have continuous noise monitoring to ensure that noise levels are kept within agreed limits. Our staff will also be regularly briefed on the importance of working responsibly in the local community.

If any of our plans change, we'll advise you via the **HS2 in Camden** website. Please sign up to receive news alerts at: [www.HS2inCamden.co.uk](http://www.HS2inCamden.co.uk)

**How you can contact us:**

If you have any queries or complaints about our work, please telephone our 24-hour national helpline on **03457 11 41 41** and we will be happy to help you. To help us identify the location of the work and provide you with a timely response, please quote the area reference shown at the start of this letter. You can also email [NRHS2@networkrail.co.uk](mailto:NRHS2@networkrail.co.uk).

Kind regards,

A handwritten signature in black ink, appearing to read "Myall", written in a cursive style.

Myall Hornsby  
Community Relations Executive  
Network Rail (HS2 enabling work)

**\*Please note – there is no planned work for areas A & B**

All the following work falls within the period 1<sup>st</sup> March 2023 – 31<sup>st</sup> May 2023

## Area C:

Dates	Working hours	Intended work in Area C
11&12 March 22&23 March	2300-0400	<b>HS2 Enabling Works</b> Removal and installation of signalling equipment and cabling

Yearly testing of firefighting systems. Station offices improvements  Cabling Installation for new substation in station

**Other work in your area:**

As part of the continuing Euston Station redevelopment there will be some heavy demolition work happening at certain points during this notification period. We will work closely with the contractors to mitigate the noise generated as much as we can. Boreholes are going to be drilled in multiple locations around the Euston station footprint during this period.

Skanska Costain STRABAG (SCS) is building the railway structures for the section of HS2 between Parkway and Hampstead Road bridge. From March to May, SCS will be carrying out piling, concrete and excavation works within their worksite beside the Network Rail tracks. SCS will also continue their works to the bridges and retaining wall within the cutting, carrying out surveys and monitoring, and installing ground anchors. For safety, SCS carries out those works closest to the tracks overnight or during weekends, when the tracks are not in use.

Mornington Street bridge will remain closed to public road traffic with access for pedestrians and cyclists only whilst SCS and Network Rail continue to work to deliver the HS2 project. For your awareness, Network Rail and contractor vehicles will need to access the bridge during this time

SCS will provide local residents with advance notice of construction impacts before they begin works. If you have any queries about the HS2 construction work, please contact the HS2 helpdesk, which is available 24 hours a day, on **08081 434 434** or email **HS2enquiries@hs2.org.uk**
