

Main works construction update – B4118

Birmingham Road site, Water Orton

High Speed Two (HS2) is the new high speed railway for Britain. Balfour Beatty VINCI is working in partnership with HS2 Ltd to build the new high speed railway in your area.

The work we will be doing

We will be continuing our construction work for the HS2 railway to pass through Water Orton. Since 2020 we have been setting up and working from our compound near the B4118, Birmingham Road. As our work continues to develop, our site continues to evolve. This notification summarises our work in this location over the upcoming months along with a compound layout map. The works and timings outlined below are subject to change and some of these works may be subject to consent.

First, we will continue works to create the Water Orton Cutting, which includes 24 hour working. This is the removal of earth from ground level to allow the trainline to run under the future Attleboro Lane Overbridge. This will include excavation and diaphragm wall works continuing towards Attleboro Lane, with works expected to be complete in Summer 2023.

In addition, we will begin the construction of the Attleboro Lane Overbridge. The overbridge will divert the existing road over the Water Orton Cutting. This will include a method known as auger-based piling works. This type of piling is less impactful than other methods both in terms of noise and vibration. The piles will be used to form a foundation that provides support for the overbridge by distributing the weight of the structure evenly across the ground. The first phase of piling will start from November 2022, with works continuing until Saturday 17 December 2022, then restarting from January 2023 until March 2023.

Our works to create a temporary pond will continue until the end of October. This will allow us to manage site water run-off. These works will include excavating, with some compacting.

We will continue to have deliveries to site and the construction and testing of our slurry treatment plant buildings, near the B4118 Birmingham Road, will continue throughout 2022.

Duration of works

- Piling works for Attleboro Lane Overbridge starting in November until March 2023
- Continued works on Water Orton Cutting until Summer 2023
- Testing of the slurry treatment plant until the end of 2022

What to expect

- Our workforce may be on site one hour before and after to set up and take down our work equipment

What we will do

- Keep hs2inwarwickshire.co.uk up-to-date with any changes
- Keep all sites safe and secure.

Keep up-to-date with your local community website

To find out more about what's happening in your area and receive regular email updates, you can sign up to our local community websites at: www.hs2inyourarea.co.uk.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at: www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at: residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing:

complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting:

www.gov.uk/government/collections/hs2-property

Find out if you're eligible for compensation at:

www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team.

For more details on our complaints process, please visit our website:
