

## Notice of Ground investigation works on the B4118 Birmingham Road , Water Orton

November 2022 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable electrical supply, NGED National Grid shall be commencing ground investigation surveys in December 2022.

### What we are doing

NGED (National Grid Electrical Distribution) are undertaking non-intrusive ground investigation works along a 700 metre section of the B4118 Birmingham Road. The section along which work will be undertaken is shown in red on the map on page 2.

In order to carry out the work safely, traffic management measures (temporary two-way traffic lights) will be in place for the duration of the works. Access to all properties will be maintained at all times.

The work is planned to start on **14 December 2022 and is expected to last until 21 December 2022**. All of the works will be undertaken between the hours of 9:30am to 3:30pm each weekday. The temporary traffic lights will be removed outside those hours.

### How this will affect you

The vehicles being used for these works will be Transit van-size work vehicles. Investigation works will be undertaken using hand held equipment scanning instruments.

We do not anticipate the level of these traffic movements will have any significant impact on the local road network.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
