

## Local Business Toolkit – How your business can use Skills, Employment and Education to help change the industry

### Links and additional resources

- **Government Apprenticeship Service** - <https://www.gov.uk/guidance/manage-apprenticeship-funds> - All apprenticeships are arranged through the government's apprenticeship service. You can get help to support training and funding of apprenticeships through this scheme.
- **HS2's Job Brokerage Platform** - <https://www.hs2.org.uk/jobs-and-skills/careers-with-our-supply-chain/> - Our supply chain expects to create 34,000 roles in the years ahead to support delivery of the railway. Our Supply Chain Jobs Board will showcase these roles as they become available, making it easier for jobseekers to find and apply for opportunities.
- **Women Into Construction** - <https://www.women-into-construction.org/about/> - Women into Construction is an independent not-for-profit organisation that promotes gender equality in construction. HS2 have partnered with this organisation to train women and recruit more women into the project.
- **HS2's Media Library** - <https://mediacentre.hs2.org.uk/news/> - You'll find all HS2's latest press releases through this section of our website. It will give you a better idea of any projects and programmes we are running around jobs and skills, as well as keep you updated as to the progress of the project.
- **HS2's YouTube Channel** - <https://www.youtube.com/user/HS2Ltd> - Here you'll find videos produced by HS2. These include construction highlights, as well as information on our various jobs and skills schemes.
- **STEM Learning** - <https://www.stem.org.uk/> - Here you'll find details of how to get involved with the STEM ambassadors and work experience programmes.
- **Engineering UK** - <https://www.engineeringuk.com/> - Where you can find details of the 'Tomorrow's Engineers Code' and how to come up with a quality work experience programme, as well as where to promote this.
