What we are doing

From 20 to 23 January 2023, we will be carrying works along Breakspear Road South, north and south of the Network Rail bridge. For safety reasons, a road closure will be in place for the duration of these works.

These activities will include:

- concrete pour for the deck of the new bridge over Breakspear Road South. These works will be undertaken on dayshifts.
- utility investigation works between the HS2 bridge and the Network Rail bridge. These works will be undertaken on dayshifts.
- installation of the conveyor bridge (for the removal of tunnel excavation arisings from West Ruislip Portal to the Southern Sustainable Placement Area). These works will be undertaken on nightshifts due to the requirement of railway possessions.
- installation of road line markings and highways signage to accommodate the new conveyor bridge spanning the public highway. These works will be undertaken on nightshifts.
- vegetation removal to increase visibility of signage / bridge. These works will be undertaken on dayshifts.

During the road closure access will be maintained for residents and emergency services.

The location of the closure and the diversion is shown on the next page.
