

## Notice of utility diversion works near Brancote, east of Stafford

January 2023 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. To allow for the construction of the new railway and to continue to ensure a safe and reliable gas supply, Cadent is moving an underground gas pipeline near Brancote, east of Stafford.

Surveys were completed in 2021 and 2022, which provided an understanding of the underground conditions so that Cadent can move the gas pipeline safely were completed in 2022.

Our next phase will be to set up the construction site and start the work to move the gas pipeline in January 2023. We expect all our work to be completed by October 2023.

### What are we doing?

Before Cadent starts work to move the pipeline, we need to set up a new site access off Blackheath Lane and an access route through the field north of Hanyards Lane. We will be starting work to build the new access from **23 January 2023**.

So that Cadent can carry out the access works safely, there will be a single-lane closure on Blackheath Lane, which we expect to take place from around **20 February 2023** until **3 March 2023**. The road will remain open at all times, although temporary two-way traffic lights will be in place.

Cadent will then start main works to move the pipeline. The work will involve:

- Set up of a new temporary works compound off Hanyards Lane
- Digging a trench for the new pipeline
- Welding the pipe together and installing it in the trench
- Connecting and testing the new pipe

Cadent vehicles will be accessing the working area from the new access route off Blackheath Lane, and then via Hanyards Lane.

There will be security on site so we can maintain a safe working environment. Please note, there will be no on-site lodging.

### How will this affect you?

Signage will be installed on the roadside to ensure safe access and exit for vehicles, and to make other road users aware.

Standard construction vehicles and equipment will be used, and all work will take place inside usual working hours. You may notice some people and equipment on site while we carry out the works.

## About our Community and Business Funds

Two funds are now open for applications from local communities and businesses affected by the construction of HS2. They are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF). £5 million has been allocated to the funds for phase 2a of the railway.

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.
