### What we are doing

Works are ongoing at Harvil Road to facilitate the road realignment.

In the last couple of months, we have been carrying out utility and construction works to build the new Skip Lane junction. We will continue with these works until February 2023.

These activities will include:

- Installation of water main and communication ducting
- Diversion of existing utilities into new utility corridor
- Water and communication installation
- Existing road demolition
- Highway & drainage construction
- Resurfacing, white lining, and installation of street furniture
- Site fencing realignment

Most of the works on the carriageways will be restricted to lane closures monitored by temporary traffic lights. However, in order to ensure that these works can be carried out safely, a road closure will be required to construct the new asphalt to match the level of the current highway from **30 January to 19 February 2023**. A clearly signposted diversion route will be in place via Moorhall Road /A412 /A40.

Please see the following pages for more information about the works we will be carrying out during this period.
