

# Notice of Wendover Bypass lane and layby closures

High Speed Two (HS2) is the new high speed railway for Britain, if you have any questions or enquiries about our work, please contact our Helpdesk to find out more. You can sign up for regular updates in your local area at [www.hs2inyourarea.co.uk](http://www.hs2inyourarea.co.uk).

## What are we doing?

We will be implementing lane closures on the A413 Wendover Bypass from Monday 27 February to Sunday 12 March to install a power connection to our Wendover batching plant.

To reduce the number of deliveries to our sites and maintain a sustainable source of concrete for our works, we have set up our own concrete batching plant at our Wendover Green Tunnel site.

Since it became operational last year, we have been using generators for power, but for us to gain a more sustainable power source with less emission production we will be connecting the plant to the power grid.

The works will involve excavating part of the Wendover Bypass to insert a high voltage cable across the road.

To complete these works safely we will be closing a lane and implementing traffic lights on a section of the Bypass along with the layby on the Eastern side of the road.

## When will these works take place?

- Monday 27 February at 8am to Sunday 12 March at 6pm.

Please note, these dates may be subject to change due to circumstances outside of our control. Please see the HS2 website for any further updates.
